Education

Sardar Patel Institute of Technology

Nov 2022 – July 2026

Bachelor of Technology in Computer Science (Data Science); **CGPA: 7.84**

Mumbai

K.K. Wagh Junior College

June 2020 – April 2022

Higher Secondary Education; **Score: 86.78%**

Nasik

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Artificial Intelligence
- Systems Programming
- Software Methodology
- Database Management
- Internet Technology
- Computer Architecture

Projects

Emergencio – RealTime Emergency Assistance App | HERE Maps SDK, Twilio API

April 2025

- Developed a real-time emergency app reducing response time by **35%** using geospatial APIs to locate **30+** nearby services.
- Built Express.js services for real-time GPS tracking, geofencing across **50+** zones, and incident data routing.
- Integrated Twilio API to send SOS alerts via SMS/voice to **3 emergency contacts within 2 seconds**.

AI-Based Pest & Disease Diagnosis Assistant | Python, TensorFlow, Keras, OpenCV

Jan 2025

- Trained a CNN model with **92.3% accuracy** on **10,000+ crop images** (tomato, sugarcane, potato) for disease detection.
- Improved model robustness by **20%** using **5+ data augmentation techniques**, dropout, and early stopping.
- Designed an offline-first AI assistant with **voice, text, and image input**, tested across **4 rural regions**.

Fake News Detection System | Python, Flask, Scikit-learn, NLP

Nov 2024

- Built and deployed a Logistic Regression model with **87.04% accuracy** to classify **61,000+** news articles.
- Engineered an NLP pipeline with **98% preprocessing coverage** using TF-IDF, tokenization, and stopwords removal.
- Developed a Flask API handling **200+ requests/sec** with **<1s latency** for real-time fake news prediction.

Google Play Store App Trends Analysis | Python, Pandas, Matplotlib, Seaborn

Sept 2024

- Analyzed **10,000+** apps to uncover pricing, review, and rating trends, generating **3 key monetization insights**.
- Built **6+ interactive dashboards** showing user behavior across **40+ app categories**.
- Found apps rated above **4.2** had **2.5x more installs**, aiding product strategy.

Technical Skills

Languages: Python, Java, C, C++, JavaScript, SQL, HTML/CSS

Developer Tools: Git, GitHub, VS Code, Node.js, Flask, Google Colab, MySQL, Postman

Frameworks & Libraries: TensorFlow, Scikit-learn, NumPy, Pandas, Flask, Django

Technologies & Concepts: REST APIs, EDA, NLP, CNN, Web Development, Version Control

Courses and Certifications

Deloitte Australia Job Simulation

June 2025

Certified Learner

Online

- Completed a virtual simulation involving data analytics and forensic technology. Built Tableau dashboards and used Excel to analyze and classify data.

Tata – Data Visualisation: Empowering Business with Effective Insights

April 2025

Certified Learner

Online

- Developed skills in designing impactful visualizations and presenting data-driven business insights.

Software Development Strengths

- Demonstrated end-to-end ownership in full-stack software projects, with experience spanning system design, API development, and scalable deployment.
- Implemented data structures and algorithms across multiple full-stack and AI-based projects, demonstrating practical expertise in Java, Python, and C++ through performance-optimized solutions.
