Education

Sardar Patel Institute Of Technology - CGPA 7.23

B.Tech in Computer Science and Engineering (Data Science)

Nov 2022 – Present

Mumbai, Maharashtra

Army Public School, Kirkee - 95.8%

High School Graduate

June 2019 – May 2021

Pune, Maharashtra

Kendriya Vidyalaya B.E.G, Pune - 96%

Secondary School Graduate

June 2009 – May 2019

Pune, Maharashtra

Relevant Coursework

- Data Structures
- Database Management
- Discrete Structure
- Computer Networks
- Operating System
- Computer Architecture
- Algorithms Analysis
- Internet Technology
- Soft Computing

Experience

Project T.H.W SP-TBI | *Next.js, Firebase*

February 2025 – May 2025

- **Built responsive frontend pages with Next.js**, leveraging server-side rendering and dynamic routing to deliver fast interfaces for card creation, scanning, and management.
- **Configured Firebase Authentication and Firestore**, implementing secure user sign-up/sign-in flows and a scalable real-time database for storing, retrieving, and filtering digital business cards.
- **Integrated QR-code generation & scanning**, enabling seamless contact exchange and quick lookup of saved cards via keyword queries.

Projects

API Call Analysis | *ELK, Docker*

March 2025 – April 2025

- Built an ELK pipeline to collect API logs and display latency heatmaps for performance monitoring.
- Implemented LSTM-based anomaly detection with SHAP to identify and explain API issues.
- Created API cost-tracking dashboards to monitor usage and cut expenses.

Supplychain Tracking of Aerospace Industry | *ReactJS, NodeJS, SupaBase, Ganache, IPFS*

February 2025 – Present

- Architected and developed a blockchain and AI-powered supply chain system for aerospace parts, securing immutable end-to-end traceability and verifying component authenticity.
- Implemented AI-driven predictive maintenance analytics to anticipate failures, reduce downtime, and enhance component reliability.
- Delivered real-time insights to mitigate counterfeiting and supply chain disruptions, driving operational efficiency and sustainability through proactive decision-making.

Crowd Funding Website | *ReactJs, NodeJs, MongoDB*

January 2024 – May 2024

- Led development of a dynamic crowdfunding platform, connecting project creators with backers and streamlining project creation, goal-setting, and multimedia sharing.
- Implemented a unique internship matching feature to link new startups with interns, enhancing platform engagement and value.
- Designed and integrated diverse funding sections, empowering backers to contribute, engage, and collaborate seamlessly.

Technical Skills

Languages: Java, Python, C, HTML/CSS, JavaScript, SQL

Developer Tools: VS Code, Google Colab, Jupiter Notebook, Github

Technologies/Frameworks: React, Tailwind CSS, Node JS

Achievements

- Barclays Hack-o-Hire Finalist - April 2025
- 2nd Runner-Up at West Warriors Hackathon - February 2025
- Codeforces Rating: 1204 (Pupil) <https://codeforces.com/profile/logicBelle07>

Positions Of Responsibility

Training And Placement Coordinator | TPO–SPIT

January 2023 – Present

Organized and executed on-campus placement drives and job fairs, securing new company partnerships, and ensuring seamless event operations.

Marketing Team Member | IEEE–WIE, Enactus–SPIT

November 2022 – July 2023
