WORK EXPERIENCE

Software Development Engineer Intern	Jun 2024 – Aug 2024
Paras Chem India, Mumbai	

- Translated business requirements for lead generation into a **full-stack digital product catalog** using the **MERN stack**.
- Designed the **end-to-end workflow** for sales inquiries, from product discovery to secure client data capture in **MongoDB**.
- Deployed a system that established a **new digital channel for B2B sales**, directly connecting potential customers to the sales team.

PROJECTS

Tomato Food Ordering Platform 🌱	Jan 2025
Skills: MERN Stack, Docker, NGINX, Stripe API, JWT	

- Engineered a **full-stack MERN platform** with **Stripe payments** and **JWT** for secure user authentication.
- Deployed the application using **Docker** and an **NGINX reverse proxy**, achieving **95% service uptime**.
- Developed the backend **RESTful API** to handle user authentication, order processing, and restaurant data management.

SignSense – Real-Time Sign Language Translator 🌱	Mar 2025
Skills: ML, OpenCV, MediaPipe, Streamlit	

- Trained a **Random Forest model** on 18 ASL gestures, achieving **92% prediction accuracy**.
- Engineered a **real-time video pipeline (25+ FPS)** for live gesture-to-text translation with **10.3s latency**.
- Utilized **MediaPipe** to extract and normalize **21 key hand landmarks** per frame, creating a robust feature set for the ML model.

Bank Loan Performance Risk Analysis Dashboard 🌱 🔗	May 2025
Skills: SQL, Tableau, Data Analysis, KPI Development, Data Visualization	

- Authored **complex SQL queries** to process a **\$435M+ loan portfolio** (38.5K+ loans) and developed an executive-level **Tableau dashboard**.
- Designed and validated **15+ KPIs** to ensure data accuracy and provide key insights into **portfolio risk and performance**.
- Implemented **interactive filters and drill-down capabilities**, allowing for granular analysis of loan performance.
