Education

B.Tech in Computer Engineering

2022 – 2026

Sardar Patel Institute of Technology, University of Mumbai

Current CGPA: 6.99/10

Higher Secondary School Certificate

2022

Shri. Gopal Junior College, Pune

Percentage: 78.67%

Secondary School Certificate

2020

Dhaneshwar Vidyalyaya, Pune

Percentage: 93.20%

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Object-Oriented Programming, Web Development, Computer Networks, Operating Systems

Academic Achievements: MHT-CET: 95.82 percentile | JEE MAINS: 82.82 percentile | Academic Excellence in Secondary Education (93.20%)

Experience

Project Intern

May 2025 – June 2025

Cognizant

Mumbai, India

- Developed comprehensive Power BI dashboards for data visualization and business intelligence insights
- Implemented machine learning algorithms using Python for data analysis and predictive modeling
- Collaborated in Agile development environment with cross-functional teams for project delivery
- Gained hands-on experience with enterprise-level data processing and visualization tools

Technical Skills

Programming Languages: C, C++, Java, Python, JavaScript, HTML, CSS, React.js

Core Skills: Mern-Stack Web Development, Database Design, Machine Learning, Data Analysis

Software Tools: MySQL, MongoDB, Node.js, Spring Boot, Git, Visual Studio Code, Eclipse

Software Skills: Web Development, Database Management, Data Visualization, Machine Learning Basics

Key Projects

Coffee Machine Management System

2024

- Developed comprehensive full-stack web application for coffee vending machine operations using React.js and Spring Boot
- Implemented secure CRUD operations for user management, inventory tracking, and transaction logging
- Designed MySQL database schema with optimized queries and integrated JWT-based authentication with role-based access control
- Created responsive React.js frontend with real-time updates using MQTT protocol simulation

ID Card Generator

2024

- Built dynamic web-based tool for creating and downloading customized ID cards using HTML5 Canvas API
- Developed interactive React.js frontend with live preview functionality and comprehensive form validation
- Implemented RESTful APIs using Node.js for efficient data handling and image processing
- Integrated MongoDB database for persistent storage and retrieval of user information and templates

Student Result Database System

2023

- Engineered secure student result management system with comprehensive user authentication using Python
- Implemented robust validation mechanisms and security questions for enhanced data protection
- Designed intuitive GUI using Tkinter for login, registration, and password reset functionalities
- Developed OTP-based password recovery system with SQL database integration for data persistence

Certifications: Data Visualisation: Empowering Business with Effective Insights - Forage | Data Structures & Algorithms Course - SkillLevel

Achievements and Activities

Hackathons & Competitions: 1st Position at AI Mageddon (SMVDU) - University Annual Fest organized by Shri Mata Vaishno Devi University, 28th Feb to 2nd March 2025

Leadership: Ladies Representative SPIT | Student Community Engagement Leader | Event Organization and Management

Volunteering: Volunteered at Agile Conference held at SPIT College
