Work Experience

Tata Consultancy Services	Dec 2024 – Feb 2024
<i>Generative AI Intern</i>	<i>Hybrid</i>
- Built Document Copilot, an AI-powered assistant that queries large documents with high accuracy. - Designed an automated orchestration workflow enabling seamless document intake and processing. - Implemented pseudonymization for PII using Google Cloud DLP to ensure data privacy before processing. - Vectorized documents and used a Vector Database for intelligent retrieval and semantic search. - Integrated Vertex AI for Q&A, summarization, and interactive document exploration.	

Projects

AI Mock Interview <i>React, Tailwind, Gemini API, Flask, PyPDF2</i> Github	June 2024 – Present
- An intelligent platform that simulates mock interviews tailored to the user's resume and target job description. Extracts content from uploaded resumes using PyPDF2 and evaluates them against the given job role. Generates a detailed analysis with strengths, weaknesses, and personalized improvement suggestions. - Conducts an AI-led interview using the resume context and provides structured feedback post-interview.	
CreatorSync <i>React, Tailwind, Node.js, Gemini API, Stable Diffusion</i> Github	Mar 2025
- Led a team of four and became finalists among 1000+ participants in a national-level hackathon. - Real-time collaborative writing platform that offers AI-powered suggestions to enhance blog content as users type. - Supports version control and edit history to track and restore content changes. - Integrated voice-to-text writing for hands-free content creation. - Generates images based on user-provided descriptions using AI. - Content generation adapts to selected writing styles like professional, storytelling, or poetic.	
Eventvista <i>MERN, Tailwind CSS, JWT, Github</i>	Nov 2024
- A dynamic platform for discovering and creating college events. - Users can browse nearby events, create their own, and search using advanced filters. Event rating system, with ratings showcased on the creator's profile.	

Technical Skills

Languages/Database: C, C++, Python, HTML, CSS, JS, SQL, MySQL, MongoDB
Frameworks: React, Tailwind CSS, Node.js, Express, Flask
Software & Tools: GitHub, Postman, Google Cloud Services

Positions of Responsibility

Funzone, Oculus - SPIT	2023 – 2024
<i>Finance Head</i>	<i>Mumbai</i>
- Managed event budgets, tracked expenses, and handled financial reporting. - Led 20+ team members, secured sponsorships, and coordinated fundraising.	

Achievements

- Problem Statement Winners - Frontend Odyssey (Feb 2025):** Won in a track among 300+ participants for building Sports Pro, a real-time sports booking and updates platform.
