EDUCATION

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology B.Tech in Computer Science and Engineering (Data Science) - CGPA(Current): 8.85	2022 – 2026
MPT Thane Higher Secondary Education - Percentage: 80.86	2020 – 2022
NHSS Airoli Schooling and Secondary Education - Percentage: 96.2%	2014 – 2020

ACHIEVEMENTS

1st Place - NITS 7.0 Hackathon

- Secured 1st position in NIT Hacks 7.0 in the Open Innovation category hosted by NIT Silchar among 1500+ participants from all over India.

1st Place - IEEE HackXplore Hackathon

- Secured 1st position in IEEE's HackXplore hackathon held in Sardar Patel Institute of Technology, attended by 300+ teams.

3rd Place - Eduhacks 1.0 Hackathon

- Secured third position at Eduhacks 1.0, hosted by Ed-Tech Company Veda-Verse and attended by 150+ teams from all over India.

EXPERIENCE

Full Stack development intern at Quantam Rental Solutions (Dec 24-Feb 25) **Nextjs | Express | Docker | AWS | Nginx**

- Worked in a complete TypeScript environment, developed APIs via redux thunk.
- Worked with Razorpay payment gateway, Digio for Aadhar verification and AWS Rekognition for face liveness detection.
- Implemented the MVC architecture using Express, implemented web hooks , cron jobs , async queues.
- Used Redis for OTP caching and Web Sockets for user tracking, MongoDB sessions for transactions, nginx as reverse proxy.

PROJECTS

System Design Synthesis **2025**

System Design Synthesis and Simulation using Agentic Architecture, LLM **Next.js | Postgres | Express.js | Locust**

- Multi-agent pipeline (System Architect, Diagrammer, Reviewer) orchestrated via CrewAI. The System Architect agent is a fine-tuned TinyLlama 1.5 model from Hugging Face, trained specifically for architectural reasoning tasks. Fine-tuned using QLoRA and AdamW optimizer to enhance contextual understanding of system design requirements.
- Design Output:** Generates a full system design proposal—architecture pattern, core components, technology stack, data flow, rationale, and PlantUML diagrams.
- Generates basic code base** and a **docker-compose.yml** file which runs the system, and a Locust server for load testing.

Eduverse **2024**

Intelligent education platform **Next.js | Express.js | Flask | LangChain | Groq | Qdrant**

- AI Functionality:** Automated quiz generation, personalized learning roadmaps, AI-powered assignment grading with rubric support, plagiarism, and AI-content detection via LangChain and RAG.
- Content Generation:** Presentation slides with diagrams using Marp and Mermaid CLI.
- Student Tools:** Semantic course material search and AI chatbot tutor via Gemini.
- Integrations:** GitHub analytics for student coding progress tracking, JWT-based auth, Qdrant-powered vector search

Medicare **2024**

Healthcare Management App **React-Native | Next.js | Spring Boot | LangChain | Postgres | FAISS**

- AI functionality:** Patient medical records and department specific data(e.g. oncology, dermatology) stored on RAG and retrieved via langchain for context-aware assistance provided to both user and doctor.
- Patient Interface:** Mobile app for users to book appointments, view reports, video consultation with doctor, and ask health and prescription related doubts to AI-assistant.
- Doctor Interface:** Smart web dashboard, appointment management using calendar, video consultation, ai-assistant for diagnosis and patient related doubts.

TECHNICAL SKILLS

Languages: C++, Java, Javascript, TypeScript, HTML, CSS

Frameworks/Libraries: React.js, Next.js , React-Native, Express.js, Spring Boot, Tailwind, Redux

Databases: MySQL, MongoDB, Postgres

Competitive Programing: 700+ problems solved across LeetCode, Codeforces, GFG
