Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science (Data Science)

Nov 2022 — June 2026

Mumbai, Maharashtra

Experience

SCOPE @ JPMC

Currently

- * Gaining industrial exposure through sessions on Agile methodology, software testing, and best practices in software development.

Aim4U Company

October 2023 – December 2023

Web Developer Intern

Andheri, Maharashtra

- * Contributed to: <https://gyan.aim4u.co.in/> : Assisted in the development of a platform designed to facilitate internship opportunities for students using Figma, HTML and Chakra UI.

Projects

CivicSphere: AI-Driven Urban Safety System | *Python, Here Maps, Django*

May 2025

- * **BazaarRoute+**: Optimized multi-item shopping routes by mapping **nearest shops** with item availability using location data.
- * **Emergency Vehicle Detection**: Triggered **real-time clearance alerts** when emergency vehicles entered a **100m radius**.
- * **Smart Navigation**: Enabled **AI-based rerouting** to avoid **flooded or weather-impacted zones** using elevation and live data also provide weather complete wether information of in between route

Revolutionizing Learning with AI | *AI, Machine Learning, NLP, Web*

February 2025

- * Developed **smart video lectures** with **auto note generation**, **attention tracking**, and **distraction detection**, offering real-time alerts to maintain student focus.
- * Designed **personalized study plans** with **progress tracking** and **adaptive MCQ testing**, adjusting content and difficulty based on learning patterns. Reports were **emailed** to parents, PTM meetings synced with **Google Calendar**.
- * Built **ConnectIQ**, a subject-specific chat system for collaborative discussions without sharing personal contact details.

Women's Safety App Development | *Python, Google Maps API, Llama APIs, Twilio API, Web*

January 2025

- * **Area Safety Flagging**: Designed a community-driven area safety rating system, aggregating user reports with minimal ML for predictive safety insights.
- * **Anomaly Detection for Routes**: Implemented geofencing with real-time GPS tracking to detect route deviations, alerting contacts based on predefined safety thresholds.
- * Built a **voice-activated SOS** and **Proximity Alert System**, triggering SMS alerts via Twilio on repeated "help" detection and notifying users within **5km** of unsafe incidents using geolocation.

Technical Skills

Languages: Java, Python, SQL

Developer Tools: VS Code, Jupyter, Git

Technologies/Frameworks: Linux, GitHub, Django, DjangoRest Framework, Chakra UI, **Basics of AWS**

Achievements

- * **Winner at HERE Technologies Hackathon** for building an innovative urban safety solution.
- * Secured **2nd position** in the International Women Hackathon organized by RAIT-W.
- * **First Runner UP** in Codethon of Vidyalankar Institute of Technology.
- * Secured **3rd position** in SPIT Hackathon..

Certifications

AWS Cloud Technical Essentials

May 2025

Machine Learning Specialization

August 2024
