Education

Sardar Patel Institute of Technology

Bachelor of Technology in Computer Science Engineering (Data Science) **CGPA - 8.27/10**

Nov 2022 - June 2026

Mumbai, India

M.K.V.V International Vidyalaya

Higher Secondary School Certificate - **93.6%**, JEE Mains: **94.41%ile**, JEE Advanced: **Rank 28728**

Sep 2020 - July 2022

Mumbai, India

Sri Sri Ravishankar Vidya Mandir

Central Board of Secondary Education - **95.4%**

April 2018 - April 2020

Mumbai, India

Experience

Bristlecone | Intern - Trainee Data Engineering Level

July 2024 – September 2024

- **Analyzed stoppage data from an automobile plant**, identifying patterns related to machines, supervisors, materials, and poka-yoke. Developed a system to detect stoppages longer than 15 seconds and optimize prediction accuracy by handling missing data.
- **Applied regression models** to forecast stoppages, analyzed the impact of employee assignments by correlating responsibility ratios with stoppages per shift, and conducted moving average and correlation analysis for operational insights.
- **Generated operational insights** by integrating data analysis techniques, ensuring data accuracy and optimizing predictive models for improved forecasting and performance tracking.

Projects

AlumniVerse – Alumni Networking Platform 📄 | *React.js, Node.js, Express.js, MongoDB, Socket.IO, Flask*

- Designed and developed a full-stack alumni networking portal with **user authentication**, **editable profiles**, and a **filterable alumni directory** (by batch, branch, role, and location).
- Implemented real-time features like a **community feed** and **private messaging** using **Socket.IO**, and integrated a Flask-based chatbot using **LangChain** and **Groq**.
- Deployed frontend on **Vercel**, backend and chatbot microservice on **Render**, and ensured robust API performance with **15+ Postman-tested endpoints**.

RecruitConnect – Job Application Portal 📄 | *Node.js, Express.js, MongoDB, Cloudinary, Flask, Machine Learning*

- Developed a secure job portal backend with **JWT authentication**, protected routes, and modular Express.js architecture; implemented recruiter dashboards and **Cloudinary**-powered resume uploads.
- Integrated a **Flask-based ML microservice** for real-time salary prediction based on age, gender, education, job title, and experience.
- Trained a **Random Forest Regressor** on 6.7k+ samples, achieving **$R^2 = 0.983$** and **MAE = \$2.8k**.

LearnHub - Collaborative Study Platform 📄 | *Node.js, Express.js, MongoDB, JWT, Socket.IO, React.js, Flask*

- Built a study platform with real-time group chat using **Socket.IO**, JWT authentication, and file sharing via **Cloudinary**.
- Integrated an AI-powered discussion forum with **word moderation** to ensure safe interactions.
- Enabled students to share notes in form of PDFs through a responsive UI built in React.

Skills

Programming Languages: Java, Python, SQL, Javascript

Web Development: React.js, Tailwind CSS, Node.js, Express.js, MongoDB

Machine Learning: Scikit-learn, Pandas, NumPy, Matplotlib, Seaborn

Tools: Git, Github, GitLab, Postman, Visual Studio Code

Positions of Responsibility

- Event Head, ESports OCULUS: Coordinated large-scale eSports tournaments, managing registrations and improving participant engagement.
- Sub Committee Member, ACSES - S.P.I.T.: Organized technical events, handling logistics and enhancing team collaboration.
