EDUCATION

Sardar Patel Institute of Technology

2022 – 2026

B.Tech - Computer Science and Engineering (Data Science) - CGPA: 8.63

Mumbai, India

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML/CSS

Databases: MySQL, MongoDB

Frameworks: React, Node.js, Tailwind CSS

Libraries: Pandas, NumPy, Matplotlib, LangChain, Socket.io

Developer Tools: Git

COURSEWORK & CERTIFICATIONS

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Object-Oriented Programming, Computer Networks, Blockchain Technology, Database Management Systems, Data Science, Machine Learning, Distributed Computing

Certification – Leadership and Team Effectiveness (NPTEL, IIT Roorkee): Completed a 12-week program covering leadership models, communication strategies, team dynamics, and conflict resolution.

PROJECTS

Serenity | React, Tailwind, Shadcn, Langchain, Groq

Mar 2025

- Developed 10+ responsive React and Tailwind UI pages; followed accessibility standards and optimized for mobile-first flow.
- Built an emotion-adaptive RAG chatbot using LangChain and Groq; designed 5+ prompt templates for diary-based inputs.
- Normalized backend schema across 6+ collections; improved query efficiency and reduced redundancy by 30%.
- Mapped 5+ psychological assessments into a scoring model and visualized user history via trend-based feedback charts.

AlumniVerse | Node.js, Express, MongoDB, Socket.io

Apr 2025

- Developed a role-based networking platform with live chat and file upload support using Socket.io and Cloudinary.
- Implemented JWT authentication and cookie-based session management; ensured security during route access and messaging.
- Diagnosed and resolved CORS and middleware integration issues across backend services and Vercel frontend.
- Tested modular backend design for real-time scalability with 10+ simulated concurrent socket clients.

Bank Loan Analysis Dashboard | Power BI, SQL

June 2025

- Analyzed 50K+ loan records using MySQL; identified patterns in home ownership, loan purpose, and default probability.
- Built 3 Power BI dashboards to visualize KPIs like MTD/MoM disbursements, DTI ratios, and interest rate groupings.
- Created 15+ visuals (bar, treemap, donut) with filter logic across 6+ dimensions; enabled multi-angle insight discovery.
- Reduced manual report generation by integrating slicers and dropdowns for self-serve filtering and drill-downs.

ACHIEVEMENTS

Algorithmic Skills: Solved over 500 algorithmic challenges on **LeetCode** — Knight Rating: **1848 (Top 5%)**

Hackathons: Winner — IEM Kolkata (National Level, 60+ teams); Finalist — Vytoclash 2025

Awards: Special Mention Certificate — IEEE WebDash Hackathon
