Education

Sardar Patel Institute of Technology

Nov 2022 – May 2026

Bachelor of Technology in Computer Science (Mumbai)

CGPA: 7.5

Experience

Urban Rent

March 2024 – April 2024

Frontend Developer

Hybrid

- Worked as a **Frontend Developer** for a college-initiated startup that aims to solve rental issues for PGs and flats in urban areas.
- Developed and maintained the frontend using **ReactJS** and **Tailwind CSS**, ensuring a responsive and user-friendly interface.
- Collaborated with the team using **Git/GitHub**, improving version control and code management.

Projects

MediAid | *React, Redux, Tailwind CSS, Django, REST, SQLite, Web Sockets*

[GitHub Link](#)

- MediAid, a real-time emergency assistance with **SOS alerts**, **live location** tracking of ambulances with **ReactMaps**, and **voice-over** emergency **messages**.
- Integrated AI-driven **chatbot support** and **one to one** real time doctor **consultations**.
- Integrated **pharmacy stores** and **emergency alerts** with **Twilio API** to notify nearby healthcare providers instantly.

EduTech | *React, Redux, Django, REST, GenAI, PostgreSQL*

[GitHub Link](#)

- Developed a web application leveraging AI to **personalize learning** for public school students by identifying skill gaps and **recommending tailored content**.
- An **AI based** quiz which dynamically adjust question difficulty based on student performance, **emotion detection** for suggesting breaks if needed, **AR/VR** to give feel of classroom in online learning.
- Implemented **real-time analytics** for educators to **track student progress**, extensive **community** building among students.
- Designed an intuitive UI using **React** and managed backend logic with **Django**, optimizing performance and **scalability** with **PostgreSQL**.

CrediTrack | *React, Redux, Django, REST, scikit-learn, joblib, PostgreSQL*

[GitHub Link](#)

- CrediTrack is a full-stack web application with the integration of **machine learning** model that **predicts** users future **credit scores** which is helpful for financial plannings.
- Integrated a **PostgreSQL** database to store **transaction histories**, **credit utilization**, and **DTI ratios**, enabling real-time model training and predictions using **Random Forest Regression**.
- Designed **RESTful APIs** for real-time predictions and integrated dynamic **visualizations** with **Charts.js** which provides actionable insights and credit improvement suggestions.

Technical Skills

Languages: Python, Java, HTML/CSS, JavaScript, SQL, NumPy, Pandas

Developer Tools: VS Code, Postman, Figma

Technologies/Frameworks: React, Redux, Django, Tailwind, REST, Git/GitHub

Databases: MySQL, SQLite, PostgreSQL

Achievements

- Winner at Datahack – D.J. Sanghvi College of Engineering
- 2nd Place in Swapathon – College-level competition
- Top 20 Finalist in National Level Hackathon - IIIT Lucknow
- Solved 400+ DSA problems on LeetCode.

Extra Curricular

- Teaching Assistant of Internship coordinator.
- Worked as a Junior Correspondent Operations for SPark committee.
- Taught 100 students at Abhyudaya.
