Education

Sardar Patel Institute of Technology Nov 2022 – May 2026
Bachelor of Technology in Computer Science and Data Science (CGPA: 9.55) Mumbai

SP Jain Institute of Management and Research (SPJIMR) Jan 2024 – May 2026
Minors in Management and Finance Mumbai

Relevant Coursework

- Data Structures
- Algorithms Analysis
- Operating systems
- Linear Algebra
- Probability and statistics
- Database Management
- Computer Networks
- Computer Architecture

Experience

Google June 2025 – present
Software Engineering Intern (SWE Intern) Bangalore

- Working with angular for frontend development and Golang,Python for backend development

SP Jain Institute of Management and Research (SPJIMR) June 2024 – May 2025
Machine Learning Research Intern Mumbai

- Using R.A.G (Retrieval Augmented Generation) to reduce LLM hallucination and increase accuracy of financial advise.
- Integrating financial knowledge with machine learning by creating a customized NLP application utilizing Langchain.

Smowcode June 2024-August 2024
SDE Intern Mumbai

- Performed UI Testing using Selenium and learnt about its applications in webscraping and interacting with web browsers
- Learning about different functionalities of smowcode and working with python,cython,JSON for software development

Projects

FAR-E-WALA:Website for Local Vendors | *React, Firebase, Mapbox* January 2024

- Utilizing React to create an interactive website to increase reach of local vendors by filtering,categorization.
- Using Mapbox React API to work with customer and vendor geolocations using haversine distance.
- Storage and Fetching of live location and details of vendors using Firebase database and sending notifications to users.

Personalized Portfolio Builder | *React, Firebase, Google Gemini, Flask, Python, Netlify API* October 2024

- Provides options for templates and different themes to be selected by user based on which it generates a static site
- Scrapes user details from resume directly to provide ease of operation and allows upload of images and certificates
- Utilizing Netlify API, it directly deploys the user's portfolio website and provides them with a compact QR code

Collaborative Real-Time Whiteboard | *React, Yjs, Y-WebSocket, Socket.IO, Node.js, WebSockets* April 2025

- Developed a React-based drawing platform where users can draw on a multi-page canvas, and chat in real-time
- Used Socket.IO for live messaging and Yjs (y-websocket) to sync canvas drawings between users in the same room.
- Added features like multiple pages, brush/color controls, undo/clear/save options, and an intuitive UI using Material-UI.

Technical Skills

Languages: Python, C++, C, HTML,CSS, JavaScript

Technologies/Frameworks: React, Nodejs, MySQL, Selenium, Flask

Libraries: Numpy, Pandas, Matplotlib , Scikit Learn

Other Technologies: Langchain, Google Collab,Hugging Face, Jupyter notebook

Leadership / Achievements

Diploma in Data Science - IIT MADRAS (Correspondence) 2023-present

Merit Award for academic excellence (2nd place) 2024

Flipkart Runway Women Finalist- Top 200 out of 36244 women 2024

Women In Engineering WIE IEEE Oct 2023 – May 2024
Vice Chairperson

- Led a team of 10 people to ensure smooth task management
- Promoted women in technology by organizing tech ,non-tech ,non-profit and educational events such as pitching competitions, hackathons, seminars and debate competitions to empower women participation in Industry.

QalaInnovista Thakur College Hackathon 2nd Runner-up 2025
