Experience

Industrial Trainee — Sumago Infotech, Nashik

2022

6-week internship on web technologies and live project simulation.

- Developed a strong foundation in web development by working with HTML, CSS, and backend technologies like Node.js, while also gaining practical scripting experience using Python for logic building and automation.
 - Collaborated on simulated software development projects, utilizing Git-based version control systems to follow industry-standard workflows and enhance team coordination.
-

Projects

Real-Time Collaborative Code Editor

2024

Developed a full-stack web application enabling multiple users to write and edit code simultaneously in real-time.

- Built using **React.js**, **Monaco Editor**, **Node.js**, **Express**, and **Socket.IO**.
 - Enabled room-based sessions with synchronized state across participants using WebSocket events.
 - Integrated Monaco for IDE-like editing and syntax highlighting in the browser.
 - Engineered modular server-client architecture for extensibility, supporting chat, user presence, and optional code persistence with **MongoDB**.
-

Fashion Recommendation Engine

2025

Developed a web application that recommends fashion products based on user preferences and trends.

- Built a full-stack system using **React.js** for frontend and **Node.js + Express** for backend APIs.
 - Designed a recommendation algorithm using **collaborative filtering** and basic **content-based filtering**.
 - Integrated Flipkart Affiliate API to fetch and display real-time product data.
 - Enabled user personalization by collecting preferences and interaction history.
 - Developed modular components like filters, search, product cards, and user wishlist.
 - Stored user data and product metadata in **MongoDB** for flexible querying.
-

Education

Bachelor of Technology in Electronics and Telecommunication Engineering

Bhartiya Vidya Bhavan Sardar Patel College, Andheri West

Expected Jun 2026

Diploma in Information Technology

Government Polytechnic, Chhatrapati Sambhajinagar

Jun 2024

Technical Skills

Programming Languages: Java, c++, MYSQL

Core Skills: Data Structures and Algorithms, System Design Fundamentals

Frameworks / Platforms: React, Git, GitHub, VS Code,

Professional Skills: Problem-Solving, Analytical Thinking, Team Collaboration

Certifications

Oracle Foundation of Java – Completed the Oracle Java Foundations course, developing strong fundamentals in Java programming, OOP concepts, and software development practices. Gained hands-on experience with development environments, cloud development, and tools like Oracle Cloud Infrastructure and IDEs.

Amazon Full Stack Web Development – Completed the Amazon Full Stack Web Development course with practical training in front-end technologies (HTML, CSS, JavaScript) and back-end development using Spring Boot. Built full-stack projects and gained hands-on experience in REST APIs, MVC architecture, and responsive web design.
