Education

Sardar Patel Institute of Technology

Bachelor in Electronics and Telecommunication Engineering

Aug. 2023 – June 2026

Mumbai, India

Veermata Jijabai Technological Institute

Diploma in Electronics Engineering

Nov. 2020 – May 2023

Mumbai, India

Skills

Languages: Java, HTML, SQL

Technologies: React.js, Node.js, MongoDB, Spring Boot, Express, Figma

Soft Skills: Strong Communication, Analytical Skills, Problem Solving, Learning Mindset, Dedication

Key Projects

Homyra – Full-Stack Web Application

Jan 2025 – Feb 2025

- Developed a full-stack rental platform (Airbnb-inspired) enabling property exploration, advanced search filters (location, price, amenities), and detailed reviews/ratings for informed decision-making.
- Implemented secure **JWT**-based authentication with role separation for guests and hosts, along with a review/rating system and Google Maps integration for property location display using MapBox.
- Built responsive, mobile-first UI using React.js and Tailwind CSS; developed RESTful APIs with Node.js/Express.js and managed data storage via MongoDB.
- Deployed on **Vercel** with GitHub-based CI/CD for seamless updates; followed Agile practices including Git version control, basic code reviews, and issue tracking via GitHub Projects.

Stock Trading Platform (Zerodha)

May 2025 – June 2025

- Developed a full-stack trading platform replicating Zerodha's core functionality with real-time financial data, live market updates, and portfolio management.
- Designed and implemented a responsive **trading dashboard** featuring order tracking, position monitoring, P&L calculations, and interactive Chart.js visualizations.
- Built a secure backend with Node.js, Express.js, and MongoDB/Mongoose, including Passport.js authentication, role-based access control, CORS, and input validation.
- Created a mobile-first UI using React.js, Material-UI, and CSS3, leveraging modular components, RESTful APIs, and best security practices. **Tech Stack:** React.js 18.2.0, Material-UI, Chart.js, React Router, Node.js, Express.js, MongoDB/Mongoose, Passport.js, CSS3.

Experience

SCAD TECHNOLOGIES (Internship)

June 2022 – July 2022

Intern – Electronics and System Design (During Diploma)

Mumbai, India

- Completed a 2-month internship during my diploma, gaining hands-on experience in electronics and system design.
- Designed and drafted circuits, location diagrams, and component layouts using KiCAD.
- Performed component-level testing, software verification, and soldering of components on PCBs.

Positions of Responsibility

Technovanza, VJTI

Aug 2022 – March 2023

Technical Head

Mumbai, India

- Led the technical team in planning, executing, and maintaining projects for India's largest tech fest.
- Oversaw event setup, managed technical troubleshooting, and coordinated with sub-committees.
- Collaborated with sponsors and managed logistics for technical exhibits and installations.

Achievements

- Secured 2nd place in the departmental project competition at VJTI for Smart Energy Meter.
- Successfully completed the VLSI workshop on the Silicon-to-Semiconductor journey.
- Was part of the Bug Buster competition.
