EDUCATION

Sardar Patel Institute of Technology, Mumbai *B.Tech in Electronics & Telecommunication*
Government Polytechnic Hingoli Diploma in Computer Engineering Percentage: **84.80%**

2023 – Present
2020 – 2023

EXPERIENCE

Alesa.ai, UK-based Startup

Server and Security Administrator

Nov 2024 - Present

- Managed infrastructure for the NoULEZ project, optimizing geospatial data delivery with an OSM server and enhancing security through user management and endpoint protection.
- Streamlined cloud deployments with Dockerized applications and maintained LLM environments for AI functionalities, ensuring seamless collaboration with remote teams.

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai

Research & Development Intern – IoT & Web Applications

Feb 2025 – Present

- Developing a cost-effective alternative for IoT gateway infrastructure, optimizing performance and scalability.
- Building a Linux-based, remotely configurable IoT gateway with an RBAC-enabled web dashboard for Vista Engineering Solutions Pvt. Ltd., involving OS-level optimizations, kernel modifications, and embedded systems development.

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology, Mumbai

System and Network Operations Intern [link](#)

July 2024 - Present

- Deployed and integrated Cisco Meraki network devices into existing infrastructure, ensuring secure and high-performance internal networks.
- Containerized and deployed an on-premises VPC server solution to enhance institutional IT operations.

Quotientica Pvt. Ltd.

Backend and MLOps Engineer (Python) [link](#)

Nov 2023 - Mar 2024

- Developed ML models for financial fraud detection, optimizing APIs for faster processing and reduced latency.
- Implemented serverless architecture on AWS to enhance scalability and resource efficiency.

Digital Einstein

Web Developer & Generative AI Intern [link](#)

June 2023 – Sept 2023

- Developed the website frontend and integrated an AI chatbot for IELTS doubt resolution.
- Explored fine-tuning with Falcon, LLM, and LLAMA 2 while gaining experience in remote collaboration.

Education Uniq

Content Manager & Full Stack Web Developer [link](#)

Dec 2021 – April 2023

- Managed content and developed full-stack solutions, serving 20,000+ diploma and pharmacy students.
- Designed and maintained platforms across web applications, mobile apps, and YouTube channels.

SKILLS

Programming Languages	Python, PHP, Javascript, Java, C/C++, Bash, SQL, NodeJS, Matlab, Scilab, Embedded C
Mobile and Web Technologies	HTML, CSS, Bootstrap, JavaScript, Django, Flask, React, NodeJs, NextJs, ReactJs
Databases	MySQL, PostgreSQL, MongoDB, SQLite, Firebase, Supabase
Development Tools	Visual Studio, Git, Eclipse, IntelliJ IDEA, PyCharm, Nano
IT Skills	AWS, Linux Server Administration, Cyber Security, Penetration Testing, Red Teaming, Linode

RELEVANT PROJECTS

Office Automation | Web Development Project [link](#)

Dec 2022 - Present

- Developed a PHP-based ERP suite for educational institutes, streamlining administrative tasks and enhancing student experience.
- Implemented secure login, tracking, and automated ID card and certificate generation features.

Color Rush - Android Game | Game Development Project [link](#)

Nov 2022 - Dec 2022

- Implemented user response time measurement and failure conditions, optimizing gameplay with intuitive UI design.
- Utilized Android Studio IDE and Java for Android game development.

Netflask - Network Utility Tool | Web Application [link](#)

June 2023 - Sept 2023

- Created a Python Flask-based web app for network troubleshooting, including features like ping test, DNS/IP lookup, traceroute, and port scanning.
- Designed the app for basic network troubleshooting, not suitable for advanced network tasks.

LoRAid SOS Connect | Disaster Communication System

March 2024 - Present

- Achieved 10 km+ low power wireless communication for disaster-impacted regions.
- Developed a cloud-based DMS using MQTT servers for first responders, programmed NodeMCU microcontrollers.

CERTIFICATES

EC-Council <i>Ethical Hacking Essentials (EHE)</i>	<i>Issued Jun 2024</i>
Kaggle <i>Intro to Machine Learning</i>	<i>Issued Jan 2024</i>
TCS iON <i>TCS iON Career Edge - Young Professional</i> Credential ID 119854-24073554-1016	<i>Issued Jan 2024</i>
Infosys Springboard <i>Penetration Testing for Highly-Secured Environments</i>	<i>Issued Jun 2023</i>
Kaggle <i>Python</i>	<i>Issued May 2023</i>

ACHIEVEMENTS

Smart India Hackathon (SIH) Finalist National-level finalist among top teams across India. Developed an intelligent platform for PII redaction with multilingual support for Indian government documents, ensuring secure and efficient data processing.	<i>Dec 2024</i>
AlgoForge Hackathon – 1st Place Winner Secured 1st place at the national-level AlgoForge Hackathon hosted by KJ Somaiya College. Built "SwiftClaim," a blockchain-based web platform optimizing the insurance claim process for insurers and policyholders.	<i>Mar 2025</i>
SPIT Hackathon – Domain Winner (App Development) Selected as a top team in the App Development domain. Built a Community Gamification App using React Native, Supabase, and OpenStreetMap. Integrated real-time maps, live chats, Lost & Found, and engagement rewards.	<i>Feb 2025</i>
Evolve SaaS Hackathon – 3rd Place Secured 3rd place at the national-level Evolve Hackathon (MIT WPU, Pune). Developed "BuFi," an AI-powered financial health dashboard for SMBs with real-time tracking, AI insights, and automated tax compliance.	<i>Feb 2025</i>
SPIT SE Hackathon – Finalist (Full Stack Development) Selected among the top 11 teams in the SPIT SE Hackathon. Developed "Becoming Me," a mental well-being awareness platform with an AI chatbot Elenor, using HTML, CSS, JS, and PHP.	<i>Apr 2024</i>
