Education

Sardar Patel Institute Of Technology, Mumbai

September 2023 – June 2026

Bachelor of Technology in Computer Engineering

CGPA: 8.47/10.0

Government Polytechnic Thane

June 2020 – July 2023

Diploma in Computer Engineering

Grade: 90%

Technical Skills

Programming: Java, JavaScript, Python, C++, HTML.

Backend & Frameworks: Node js, Express js, React js, MongoDB, MERN, DevOps, REST APIs, API design

Tools & Platforms: Git, GitHub, Postman, Netlify, MySQL, version control, Streamlit, CI/CD, Data-driven applications.

Work Experience

Web Development Intern — AIBI Street Pvt. Ltd.

July 2022 – August 2022

- Optimized user engagement metrics by 35% through development and integration of an interactive Lightgallery feature for EStateEmblem property listing platform using HTML5, CSS3, and JavaScript
- Implemented responsive image navigation system improving page load times by 40% and reducing bounce rates by 25%
- Collaborated with UI/UX team to redesign property showcase interface, resulting in 30% increased time-on-page and 15% higher conversion rate.

Projects

IntelliWealth — Role: Frontend and Backend

March 2025

- Developed an AI-powered personal financial advisor as a final year project, enabling automated expense analysis, budget optimization, and goal-driven wealth planning.
- Engineered a hybrid recommendation engine using Pareto analysis and LLM+RAG to provide both heuristic and semantic budget suggestions, supported by FAISS retrieval, utility optimization, and constraint-based modeling.
- Delivered 2X more actionable, inexpensive and personalized financial insights through a hybrid recommender, driving smarter budgeting and long-term wealth behavior change.

PageHaven (Online Book Library) — Role: Frontend and Backend

July 2024

- Built an AI-powered book recommendation platform with a hybrid architecture (React + Node.js + Flask) that supports natural language search, genre/author-based filtering, and personalized book recommendations using ML techniques like TF-IDF, KMeans clustering, and cosine similarity.
- Integrated LangChain with Groq LLM to enable conversational interaction with uploaded PDFs using vector embeddings (FAISS) and fallback LLM-based answers when relevant content isn't found in documents.

Noterizz — Role: Frontend and Backend

April 2024

- Built a role-based platform for students and faculty to upload, access, and manage academic resources with secure UID-verified logins and session-based access control.
- Worked on features like note uploads, bookmarks, aptitude tests, performance tracking, and faculty-triggered email notifications using Node.js, Express, MongoDB, Multer, and Nodemailer.

Achievements

- Domain Winner in Web Development track at SPIT Hack'25 organized by CSI-IEEE SPIT (Feb 2025).
- Ranked 148 nationally in the GSSoC Extended '24 program (Nov 2024).
- Secured 1st place (out of 200+ teams) at BitNBuild'24, an international hackathon by GDSC FR. CRCE.
- Achieved 1st Runner-up at TSEC NFC 3.0'24 among 100+ participants (Aug 2024).
- Solved over 600 DSA problems ([View profile](#)).

Position of Responsibility

Vice-Secretary — Technova Technical Event, GP Thane

January 2023

Promoted from Technical Head to Vice-Secretary for outstanding leadership, managing a team of 20+ members to execute a 3-day technical event with 500+ attendees

Technical Head — Technova Technical Event, GP Thane

December 2022

Led a team to organize GPT's annual tech event and coordinated 3 technical workshops with 150+ student participation
