EDUCATION

Sardar Patel Institute Of Technology

Bachelor Of Technology in Computer Science

Mumbai, Maharashtra

August 2023 – Present

- Cumulative GPA : **8.3/10.0**
- Relevant Coursework: Distributed Computing, Compiler Construction, Natural Language Processing, Big Data, Design of Algorithms, Linear Algebra, Discrete Mathematics, Probability and Statistics, Computer Networks

SES Polytechnic

Diploma in Computer in Technology

Solapur, Maharashtra

November 2020 – June 2023

- Percentage: **94.17/100.0**
- Relevant Coursework: Operating System, Software Engineering, Computer Network, DBMS, Data Structures

TECHNICAL SKILLS

- **Programming Languages:** Java, JavaScript, Python
- **Technology:** Back End Development, Native App Development
- **FrameWorks, Platforms:** Node, Express, React, Microsoft Azure, Docker
- **Databases:** FireBase, Oracle DB, MySQL, MongoDB, PHPMyadmin

PROJECTS

Vayomitra - AI-Powered Elderly Care Assistant

- Vayomitra is an intelligent AI companion designed to ensure elderly safety, health, and seamless communication with caregivers, offering real-time monitoring and smart assistance.
- **Tech Stack:** React Native, Firebase, Google Maps API, AI, NLP.
- **SOS Alert:** Detects falls using wearables and sends emergency alerts within **5 seconds** with live location.
- **Saya - AI Caretaker:** Provides voice/chat-based assistance and diet plans from **1,000+ Indian cuisines**.
- **OCR Prescription Scan:** NLP Powered OCR with **94.7%** accuracy to scan, identify medicines, track dosage.

HealthInsure AI - Personalized Health Insurance Recommender

- HealthInsure AI is an intelligent platform that predicts potential future health risks using past medical history and recommends the most suitable insurance plan that comprehensively covers those predicted conditions.
- **Tech Stack:** Python, Flask, Scikit-learn, Pandas, MongoDB, React, Node.js, REST API.
- **Disease Prediction:** Utilizes ML models trained on patient history data to forecast diseases, health risks.
- **Insurance Matching Engine:** Matches predicted conditions with coverage details from various providers.
- **User Dashboard:** Allows users to upload medical records, view risk assessments, and compare plans.

FarmTech - B2B Farmer & Buyer Portal

- FarmTech is an innovative e-commerce platform connecting local farmers with buyers, enabling direct transactions and streamlined supply chain management.
- **Tech Stack:** React, Node.js, Express, MongoDB, RabbitMQ, Razorpay, Porter API, AI.
- **Real-time Ordering:** Farmers list products, and buyers place orders seamlessly with invoice generation.
- **Payments & Logistics:** Integrated **Razorpay** for seamless transactions and **Porter** for ondemand logistics.
- **AI-Powered Quality Check:** Uses deep learning to analyze images and assess product quality .
- **Dashboard:** Role-based access to manage inventory, track transactions, and analyze sales trends.

SCHOLASTIC ACHIEVEMENTS

- **First Prize** at **National Level Hackathon** hosted by **Government Engineering College, Aurangabad**.
- **Runner Up** at a **National Level Hackathon** hosted by **St John College of Engineering Palghar**.
- **App Domain Winner** at **National Level Hackathon** hosted by **Sardar Patel Institute of Technology**.
- **Runner Up** at **State Level Paper Presentation** by **Maharashtra State Board of Technical Education**.
- **Runner Up** at **State Level Poster Presentation** hosted by **S.E.S. Polytechnic Solapur**.

CERTIFICATIONS

- **Microsoft Azure AZ-900:** Demonstrated foundational knowledge of cloud computing and Azure services. Gained expertise in using Azure's management tools and understanding its service lifecycle.
