Education

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology, Andheri Aug 2023 - July 2026
B.Tech in Computer Engineering CGPA: 7.87

Government Polytechnic College, Jalgaon Jan 2020 - July 2023
Diploma in Computer Engineering Percentage: 88.57

Experience

Web Development Trainee July 2022 - Aug 2022
Sumago Infotech Pvt. Ltd. 🌐 *Nashik, Maharashtra*

- Collaborated with senior developers to design and build responsive web solutions using HTML, CSS, JavaScript, JQuery and MySQL.
- Awarded the "Superstar Trainee" recognition for outstanding performance, adaptability, and initiative during the internship.
- Built order management features and enhanced the front-end of a furniture e-commerce site to improve user experience.

Projects

Vayomitra – AI-Powered Elderly Care Assistant App | *React Native, Firebase, AI/NLP, Twilio* 🌐

- Developed an intelligent mobile application to assist elderly users with health monitoring, safety, and seamless communication with caregivers using real-time AI technologies.
- **Safety & Routine Management:** Integrated fall detection via wearable sensors with Twilio-powered SOS alerts (within 5 seconds), and implemented a daily planner with medication reminders to support consistent health routines.
- **Saya – AI Assistant:** Designed a conversational AI interface to handle elderly user queries and provide personalized nutrition suggestions from a database of 1,000+ Indian cuisines.
- **Prescription OCR:** Achieved 94.7% accuracy in extracting and tracking medication details from prescriptions using NLP-based optical character recognition.

Atten – Smart Attendance Tracking App | *Java, Firebase, Google Maps API* 🌐

- Developed an Android-based smart attendance application that automates user check-ins using location-based geofencing and secure code verification, successfully deployed for 200+ active users.
- **Real-Time Location Validation:** Integrated Google Maps API to validate user attendance through live GPS location tracking.
- **Secure Role-Based Access:** Implemented Firebase Authentication and Firestore to manage user roles, ensure data segregation, and enforce secure access control.
- **Automated Tracking & Notifications:** Real-time attendance recording with instant push notifications for users and administrators.

FarMart – B2B Farmer & Buyer Portal | *React.js, Node.js, Express.js, MongoDB, Razorpay API* 🌐

- Built a full-stack B2B e-commerce platform that connects local farmers with institutional buyers, streamlining procurement, order fulfillment, and logistics.
- **Real-Time Transactions:** Implemented seamless ordering and automatic invoice generation with Razorpay integration for secure payments.
- **AI-Powered Crop Recommendation:** Developed a machine learning pipeline that analyzes soil mineral content to suggest optimal high-yield crops with 92% prediction accuracy.
- **Live Market & Weather Data:** Real-time crop price data scraped from official sources and integrated weather APIs for predictive planning.

Technical Skills

Languages: Java, JavaScript, Sql

Frameworks & Libraries: React.js, Node.js, Express.js

Developer Tools & Platforms: VS Code, Android Studio

Databases: MySQL, MongoDB, Firebase

Achievements

National Level Recognitions

- **Winner** – Wings Hackathon hosted by Government Engineering College, Aurangabad. 🌐
- **1st Runner-Up** – MEGAHACK 5.0 Hackathon at St. John College of Engineering, Palghar. 🌐
