EDUCATION

2023 – Present	B.Tech in Computer Science and Engineering at Sardar Patel Institute of Technology, Mumbai (CGPA: 7.43)	
2019 – 2022	Diploma in Computer Science and Engineering at Government Polytechnic, Mumbai	(92.83%)
2007 – 2019	SSC at St. Mary's High School, Dahanu Road	(90%)

WORK EXPERIENCE

Full Stack Developer, HelloAR, Bangalore

July 2022 - Sep 2023

- Gained hands-on experience in React.js and Next.js for building dynamic, scalable, and user-friendly interfaces, with Flask powering backend services.
- Designed, developed, and maintained high-performance, reusable frontend components, seamlessly integrated with RESTful APIs.
- Developed RESTful APIs with optimized database queries, improving data retrieval speed by 70%, reducing load times by 40%, and enhancing scalability to handle 1000+ concurrent users.
- Collaborated closely with clients to gather requirements, provide technical insights, and deliver solutions within agreed timelines.
- Conducted in-depth performance analysis, optimizing application complexity and delivering an 80% boost in overall performance.
- Worked in Agile/Scrum teams, actively contributing to sprint planning, daily standups, and code reviews to ensure high-quality deliverables.

Frontend Developer Intern, Fyntune Pvt Ltd, Navi Mumbai

Jan 2022 – June 2022

- Developed reusable components, reducing code duplication by **30%**.
- Integrated frontend with REST APIs, optimizing **state management** (Hooks, Context, Redux).
- Enhanced performance with **lazy loading, code-splitting, memoization**, reducing load time by **35%**.
- Built CI/CD pipeline with GitHub Actions to automate deployment, reducing effort and accelerating releases.

PROJECTS

QuickBizz - E-Commerce Web Application

 [GitHub](#)

Full-stack web application using **React+Flask**, featuring intuitive product listings, smooth browsing, and a secure purchase flow. Focused on responsive design, efficient state management, and optimized backend integration.

Natours - Secure Backend System

 [GitHub](#)

Engineered a secure backend using Node.js, Express, and MongoDB, featuring JWT authentication, role-based access control, and a scalable modular architecture with CORS, XSS and Rate Limiter for secured experience

HelloRamp – AI Car Dealership Platform (HelloAR)

Developed RESTful APIs in Flask to handle vehicle catalog, user management and media processing with improved efficiency. Built and optimized components in Next.js for 360° car views and interactive photo booth.

TECHNICAL SKILLS

Frontend	React.js, Next.js, JavaScript, TypeScript, Bootstrap, TailwindCSS, HTML5, CSS3
Backend	Node.js, Flask, FastAPI, Express
Databases	MongoDB, SQL, PostgreSQL
Languages	Python, Java, C++, JavaScript, TypeScript
Tools & Concepts	Git, Bitbucket, Postman, Firebase Console, MongoDB Compass, Vercel, Heroku, AWS

ACHIEVEMENTS / EXTRACURRICULAR

- **Participated in CodeShastra Hackathon** at DJ Sanghvi College of Engineering, Mumbai, showcasing problem-solving and collaboration skills.
- **Represented school cricket team** at the District Level, demonstrating teamwork, leadership, and competitive spirit.
