Education

Sardar Patel Institute of Technology | CGPA: 8.10/10

2023 – Present

B.Tech in Computer Science and Engineering

Mumbai, India

Bharati Vidyapeeth Institute of Technology | 93.64%

2020 – 2023

Diploma in Computer Technology (Gold Medalist)

Navi Mumbai, India

Work Experience

Sardar Patel Institute of Technology

May 2024 – Aug 2024

Web3 Research Intern

Mumbai, India

- Architected a **blockchain-based academic credit system**, developing a scalable solution to enhance reliability.
- Collaborated with **VJTI Mumbai**, conducting research to improve performance beyond existing systems.
- Learnt **Hyperledger Fabric**, **IPFS**, and **Redis** through hands-on documentation, accelerating technology adoption.
- Streamlined data workflows with smart contracts, boosting system uptime to **98%** and fostering academic collaboration with **5+** colleges in Mumbai.

ScrollConnect ([link](#))

Jul 2023 – Sep 2023

Platform & Partnerships Engineering Intern

Remote

- Built a scalable web platform with Next.js and **Supabase**, deployed on ScrollConnect.com, boosting user engagement.
- Secured a media partnership with Whizz Media via negotiation, increasing visibility by **20%** and client ties.
- Coded RESTful APIs and React components, enhancing performance for **300+** users with a responsive interface.
- Optimized system for scalability, supporting **200+** daily transactions with **98%** uptime.

Technical Skills

Languages/frameworks: Python, Java, SQL, Node.js, Express, Flask, Django, Handlebars

Databases & Analytics: MongoDB, Redis, IPFS, CouchDB, AWS, Data Science

Tools & Development: Agile, Excel, Agile, Selenium, Machine Learning, , Data Visualization, ETL Processes

Projects

PII Protection Platform | *Flask, Python, pyesseract, PyMuPDF, Vosk*

[[Demo](#)]

- Engineered a **Flask** and React-Native Expo platform to detect and redact **PII** across text, PDFs, images, and audio using regex engines with **98%** accuracy, ensuring Indian compliance.
- Optimized **batch processing** with multi-threading and **BERT** models for 10+ languages, securing **1,000+** documents in 5 minutes, enhancing privacy while testing the system.

SocioManager | *Twilio API, Flask, Streamlit, FFmpeg, RAG*

[[Demo](#)]

- Developed a GenAI-powered content suite featuring text-to-video generation, avatar masking, and auto-personalized content loops, increasing content output efficiency by 60%.
- Integrated FFmpeg and RAG for efficient multimedia processing, ensuring high-quality outputs across platforms.

Cancer Detection System | *Django, Python, Vision Transformers, Streamlit*

[[Demo](#)]

- Built a web-based detection system with Django and **Vision Transformers** to classify DICOM images, reducing misdiagnosis by 30% for 500+ healthcare users.
- Collaborated with Lilavati Hospital to enhance backend with Streamlit, boosting accuracy by 25% for 10+ institutions.

Achievements & Certifications

Grand Finalist: Smart India Hackathon (**13L participants**), managed and led 5-member team for PII protection project.

1st Place Winner: Level-Up KJSIT Hackathon (**400+ teams**), created innovative ideas along with development.

Finalist: DataVerse: Data Analytics Case Competition by KOED x **IIM Lucknow** (Top 12 amongst 1200+) participants

Recognition: Developed and sold Encrypted EVMs for 10+ schools, enhanced electoral security and learning efficiency.

Certification: JPMorgan Chase Investment Banking Virtual Experience.

Certification: Corporate Finance Institute - Corporate Finance Fundamentals.

Certification: Corporate Finance Institute - Introduction to Business Intelligence.

Position of Responsibility

Google Developers Community Mumbai (GDG-MAD)

- Served as PR Manager, reaching 1,000+ developers through events and collaborating with 100+ industry speakers.

Cultural Secretary - BVIT Mumbai

- Managed and led multiple events improving participation and engagement by 30% and utilized EventBrite for efficiency.
