EXPERIENCE

Sahu Technologies Pvt. Ltd.

Full Stack Web Development Intern

July 2022 - August 2022

[Link](#) | *Hybrid*

- Developed and deployed responsive client websites using HTML, CSS, and JavaScript, achieving **100%** cross-device compatibility and ensuring intuitive user interfaces.
- Integrated PHP and MySQL for backend functionality, ensuring a robust architecture and conducted knowledge-sharing sessions on full-stack development with interns and team members, enhancing the overall productivity.

PROJECTS

Rakshasetu | [Github](#)

React.js, Express.js, Node.js, MongoDB, OpenStreetMap

March 2025 - April 2025

- A real-time crime reporting and prevention platform with secure, encrypted media evidence storage.
- Has AI modules for image captioning, crime classification, and video summarization.
- Engineered **Role-Based Access Control (RBAC)** portals for a real-time crime reporting platform, integrating AI-verified media classification, SOS alerts, and crime mapping; achieved over **75% accuracy** in AI-based report validation during simulated testing.

Termsheet Validator | [Github](#)

React.js, TesseractOCR, Distilled LLaMA, RAG, ChromaDB, Docker

October 2024 - November 2024

- Automated institutional term sheet validation using **OCR** and a fine-tuned **Distilled LLaMA** model to extract key terms, achieving **90%+** accuracy in detecting mismatches in trade IDs, financial figures, and contractual clauses.
- Compared extracted data against a master sheet and compliance rules using **RAG-based search** (ChromaDB), highlighting **15-20 violations** per batch and generating structured reports within seconds.

Kisaan Utsav | [Github](#)

React.js, Express.js, Node.js, MongoDB, Bcrypt, JWT, Stripe

February 2024 - March 2024

- Developed a **lightweight** platform for rural farmers to buy agri-products and view real-time weather, optimized for **~40%** faster loads and seamless device compatibility in low-bandwidth areas.
- Built an AI diagnostic tool enabling image-based analysis of crops and soil to provide accurate, data-driven solutions.
- Integrated **Stripe** into the platform to offer farmers a secure, hassle-free payment experience, ensuring smooth transactions for low-bandwidth connections.
