Education

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology <i>Bachelor in Computer Science Engineering Artificial Intelligence and Machine learning</i>	8.47 CGPA <i>Oct. 2023 – July 2026</i>
M.H. Saboo Siddiq Polytechnic <i>Diploma in Computer Engineering</i>	92.80% <i>Oct. 2022 – June 2023</i>
S.R.W.S High School <i>Higher Secondary Education Board</i>	88.40% <i>June 2008 – March 2020</i>

Experience

Nexgen Marketing <i>Full Stack Developer Intern</i>	July 2022 – August 2022 <i>Mumbai</i>
- Collaborated with a cross-functional team to develop and deploy a responsive web application, streamlining operational workflows by 20%. - Built an interactive application for early detection of motor deficits in autism spectrum disorder patients, incorporating behavioral tracking and secure Firebase Realtime Database for dynamic data handling. - Enhanced user engagement by 30% through modular UI design and optimized component rendering.	

Projects

TrendBlend: Personalized Merchandise Through Neural Style Transfer <i>Python, TensorFlow, CNN, Deep Learning</i>
- Developed a lightweight 26-layer CNN-based Neural Style Transfer model to create personalized merchandise by blending content images with artistic styles. - Designed a three-phase deep learning architecture with Conv2D, ReLU, BatchNorm, MaxPooling, and Conv2DTranspose layers.
Recipe-based Rating Using Context Analysis <i>Python, NLP, MySQL</i>
- Enhanced user engagement by designing a sentiment-based rating engine that automatically generated star ratings for recipes based on user comments; personally reviewed and refined 50+ ratings. - Analyzes the context of user comments (taste, ingredients, preparation) to generate accurate ratings. - Uses MySQL to store recipe data, user comments, and ratings for efficient data management and retrieval.
AI Portfolio Builder <i>ReactJS, Python, JavaScript, Firebase</i>
- Automated the creation of professional portfolios by extracting relevant data from resumes and GitHub profiles. - Leveraged AI to generate customizable layouts showcasing skills, experience, and achievements. - Integrated GitHub API using Axios and implemented one-click Netlify deployment for instant web publishing.

Technical Skills

Languages: Python, Java, C, C++, HTML/CSS, JavaScript, SQL, PHP
Developer Tools: VS Code, Google Cloud Platform, Android Studio, Postman, GitHub, Netlify, Firebase
Technologies/Frameworks: React, Flask, Express.js, Bootstrap, TCP/IP, WordPress, TensorFlow, RabbitMQ, PostgreSQL, MongoDB.

Certifications

- Participated in a Research Study at IIT Bombay on Understanding Socially Shared Metacognitive Regulation (SSMR) in Collaborative Design of Learning Solutions for Constrained Learners, demonstrating collaborative software design skills.
- Token Service Technology Virtual Experience Program by Forage.
- Python Coding Course, Suven Consultants Technology Pvt. Ltd.

Awards & Achievements

- Won **3rd Prize** in State Level Technical Paper Presentation on "Predicting Activities related to Motor Deficit in Autism Spectrum Disorder Patient using ReactJs"
- 2nd RunnerUp** at VISTA 2025 Hackathon, hosted by TCET.
- Top **20 Finalist out of 200 participants** at Webathon, a web development hackathon hosted by MHSSP.
