Soft Skills: Leadership and Presentation in Hackathons, Active Role in WIE Committee as Subcommittee Member, Collaborative Technical Blogging Experience

Education

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology (SPIT)

August 2023 - May 2026

B.Tech in Computer Science and Engineering (Data Science) (CGPA: 8.2)

- **Coursework:** Data structure and Algorithms, Software Engineering, Computer networks, Operating system, Database Management System, Programming, Agile Methodology, Machine Learning.

Experience

Think Gestalt (Mumbai) - Web Designer

July - August 2023

- Created clone of Zomato Website.
- I was involved in a real-time named "PROVENTUS" project within the company, where my primary responsibility was to ensure its responsiveness.

University Projects

Notify Me : Android Studio, Java, Google Firebase

- I developed an application that sends notifications to students and staff ten minutes before their lectures and labs.
- It also allows staff to update the existing schedule, ensuring that notifications are sent accordingly. Additionally, the application provides a platform for uploading notes and making important announcements.

Women's Safety App Development : Flutter, Dart, Python, Google Maps API, Llama APIs, Twilio API

- **Area Safety Flagging:** Designed a community-driven area safety rating system, aggregating user reports with minimal
- **Anomaly Detection for Routes:** Implemented geofencing with real-time GPS tracking to detect route deviations.
- Integrated a **voice-activated SOS trigger** that sends alerts when the phrase "help" is detected three times via Twilio.

Koren Skin Color Analysis Test : Bootstrap, JavaScript, TensorFlow, Django.

- Assist users in understanding their skin tone and discovering personalized color recommendations.
- By analyzing the user's facial skin tone through an uploaded photo or a live scan, the application provides tailored suggestions for colors that complement their natural complexion.
- Additionally, users can explore a dynamic color palette to visualize how different shades interact with their appearance, offering deeper insights into suitable styles.

Achievements

- Secured **2nd position in the 24 hours International Women Hackathon** organized by RAIT-W. Concepts
- secured **2nd position in 6- hour hackathon VISTA** organised by Thakur Collage.
