EDUCATION

- B.Tech in Computer Science & Engineering (Data Science)**, Sardar Patel Institute Of Technology **CGPA: 7.56** (2026)
- Diploma in Information Technology**, Government Polytechnic Mumbai - **95 %** (2023)
- Indian Certificate of Secondary Education**, New Model English High School, Chembur - **87%** (2020)

SKILLS

Programming Languages: Python (Pandas, NumPy, Scikit-learn), SQL, C/C++, Java, JavaScript

Data Analysis & Visualization: Excel, Power BI, Tableau, Matplotlib, Seaborn

Machine Learning: Supervised & Unsupervised Learning & Regression

Statistical Analysis: Hypothesis Testing, A/B Testing, Data Cleaning

Web development: HTML, CSS, Django

API Development & Integration: REST API, Postman, FastAPI

PROJECTS

Customer Churn Prediction (Python, Machine Learning, Seaborn)

- Developed a customer churn prediction model using logistic regression and random forests, with high precision and recall, for a subscription service.
- Conducted EDA, feature engineering, and integrated survival analysis for time-to-churn insights, enabling targeted retention strategies.

Sales Performance Dashboard (Power BI & SQL)

- Developed Power BI dashboard analyzing sales trends and customer behavior.
- Utilized SQL queries to extract, clean, and manipulate large datasets from a retail database.

FakeInvoice Detector: AI for Business Document Fraud Detection (Python, Numpy, Pandas, NLP, Scikit-learn)

- Engineered a fraud detection pipeline using Python, XGBoost, and unsupervised anomaly detection** to identify fake or manipulated invoices based on metadata and text fields.
- Applied NLP on invoice descriptions and integrated feature engineering on transactional data**, achieving high precision in classifying anomalies and deploying an interactive dashboard using Streamlit.

SkillSwap: Peer-to-Peer Skill Barter Platform (Python, Django, PostgreSQL, RestAPI)

- Built a Django-based web platform for peer-to-peer skill exchange, featuring user authentication, skill listing, and a custom matching algorithm to connect users offering and requesting complementary skills.
- Integrated real-time messaging, user reviews, and scheduling tools using Django Channels, PostgreSQL, and third-party APIs to enhance collaboration and engagement.

Experience

Software tester and Quality Assurance | SmartSchool Pvt. Ltd.

(Jan 2023 - May 2023)

- Conducted manual and automated testing to identify, document, and track software defects, ensuring functionality, performance, and security standards.
- Collaborated with developers to define test plans, execute test cases, and improve software quality, achieving a high standard of reliability and user satisfaction.
