ABOUT ME

A motivated and detail-oriented Software Developer with a strong foundation in Java, Android development, and RESTful API integration. Proven ability to quickly learn new technologies and a keen interest in applying AI-driven solutions to solve real-world problems.

EDUCATION

BHARATIYA VIDYA BHAVAN'S SARDAR PATEL INSTITUTE OF TECHNOLOGY
MCA

2024-2026

INSPIRIA KNOWLEDGE CAMPUS
BCA

2020-2023

SKILL

- **Programming Languages** – Java, Python, Javascript,
- **Platforms and Frameworks** – ReactJS, Flutter, Android SDK, ExpressJS, Springboot
- **API and Web Technologies** – RestfulAPIs, JSON, XML, Postman, OAuth, API Integration, SDK Implementation
- **Tools and Technologies** – Git, Github, Docker, Jenkins, Ansible, Selenium
- **Concepts** – Problem-solving, Object-Oriented Programming (OOP).

PROJECTS

Vehicle Rental System | MERN Stack, Tailwind CSS

- Built a full-stack website that lets users easily find, book, and manage rentals, replacing a complicated offline process.
- Created the core system using Node.js and Express, building a secure API to handle user logins, car listings, and bookings.
- Developed a fast, modern front-end with React and Tailwind CSS that works perfectly on web.
- Used MongoDB to reliably store all user, vehicle, and booking information.

Employee Management System | Springboot, React, MongoDB

- Built a management tool with two views: a powerful admin panel for HR and a simple portal for employees to view their info.
- Used Springboot to handle the backend of the application.
- Added key features like adding/removing employees, tracking attendance, and generating reports.
- Set up secure login systems to protect sensitive employee data.

SPIT Connect: Academic Document Hub | MERN Stack, React, MongoDB

- Created a one-stop platform for students to digitally access and manage their IDs, admit cards, and recommendation letters.
- Simplified the tracking of internships and placements, making it easier for students to stay organized.
- Focused on building a secure backend to safely handle private student data.
