OBJECTIVE

To obtain a challenging role as a Full Stack Developer where I can apply my skills in Java and MERN stack to build user-friendly and efficient web applications.

EDUCATION

Bharatiya Vidya Bhavan Sardar Patel Institute of Technology <i>Masters in Computer Application (MCA)</i>	Mumbai, India Sep 2024 – June 2026
B.K.Birla College of Arts, Science and Commerce <i>Bachelor of Science in Information Technology (BScIT)</i>	Mumbai, Maharashtra Aug 2020 – May 2023

TECHNICAL SKILLS

Programming Languages: Core Java, Advanced Java, JavaScript

Frontend Development: HTML, CSS, React.js, JSP

Backend Development: Java Servlets, JDBC, Express.js

Databases: MySQL

Testing Tools: Postman (API Testing)

Version Control: Git, GitHub

Core Concepts: OOP, MVC Architecture

MAJOR PROJECTS

HireHub Java (Servlets/JSP), MySQL, HTML/CSS/JS - Developed a multi-role job portal enabling job seekers, recruiters, and admins to manage employment processes. - Used JDBC with MySQL to implement job posting, application tracking, and smart filtering features. - Built a responsive UI using Bootstrap and structured the backend with MVC design principles. - Hosted the application locally using Apache Tomcat for testing and demonstration.	GitHub
ServEase MERN Stack (MongoDB, Express.js, React.js, Node.js) - Designed a service connection platform to help users discover nearby professionals such as electricians and tutors. - Implemented category- and location-based filtering to enhance service discovery. - Displayed service listings dynamically using React, with backend data handled through Node.js and Express.	GitHub
StreetBites JSP, Servlets, MySQL - Built a street food discovery app allowing users to explore and share hidden food spots. - Integrated keyword search, image uploads, and session-based access controls. - Designed a responsive interface with dynamic filtering for improved browsing experience.	GitHub

CERTIFICATIONS

Java Full Stack Development – Capgemini & Symbiosis Skills and Professional University	Jan 2024 – Mar 2024
Web Development Course – JSpiders and Qspiders Thane	Jul 2023 – Sep 2023
Arduino Training – Spoken Tutorial, IIT Bombay	Dec 2022
Participated in Women's Frontend Hackathon at S.P.I.T, organized by WIE IEEE	2025

RESEARCH WORK

IoT Based Fence Technology for Rural Development – Published in IRJMETS (Volume 4, Issue 10, Oct 2022, Impact Factor: 6.752)

Designed and implemented an IoT-enabled electric fence system using solar energy and sensors to prevent wild animal intrusion in agricultural fields, promoting smart village solutions.
