EDUCATION

Master of Computer Applications

Sardar Patel Institute of Technology, Mumbai

Sep 2024 - Sep 2026

GPA: 9.09

B.Sc. Computer Science

B. K. Birla College Kalyan, Mumbai

Sep 2021 - May 2024

GPA: 9.61

PROJECTS

CarsWorld – Car Rental Platform | MERN Stack, Socket.io, ImageKit ([GitHub Repo](#))

- Developed a full-stack car rental web app with user/admin modules, JWT authentication, and real-time dashboard updates using Socket.io.
- Implemented features like car browsing, booking management, wishlist, profile editing, review system, and image uploads via ImageKit.
- Built using React (Vite), Tailwind CSS v4, ShadCN UI, Framer Motion, and Three.js for 3D car visualization.

WanderSplit – Travel Expense Splitter | Flutter, Firebase ([GitHub Repo](#))

- Developed a cross-platform mobile app to manage and split travel expenses with trip creation, member roles, and real-time tracking using Firebase.
- Implemented custom expense splits, recurring expenses, receipt uploads, and automated settlement logic with analytics via `fl_chart`.
- Integrated Firebase Auth, Cloud Firestore, and Storage with a responsive, animated UI featuring dark/light mode and onboarding flow.

AlgoTraceX – DSA Learning & Visualization Platform | MERN Stack, Gemini API ([GitHub Repo](#))

- Built a full-stack platform for interactive DSA learning with topic-wise visualizations, practice questions, and test tracking.
- Led development of user authentication (JWT-based), role-based access, and the complete admin dashboard with analytics and content management.
- Integrated AI-powered personalized recommendations and explanations using Google Gemini API for an intelligent learning assistant.

Unnati – Rural Girls' Empowerment Platform | MERN Stack, Firebase ([GitHub Repo](#))

- Contributed to a social impact platform aimed at empowering rural girls through digital learning, career support, and mentorship.
- Focused on frontend development using React (Vite), Tailwind CSS, ShadCN UI, and Radix UI to build responsive, accessible interfaces.
- Worked on building user-facing pages like dashboard components, mentor sections, and ensured clean, consistent UI/UX across devices.

SKILLS

Front End: React.js, HTML, CSS, JavaScript, Tailwind CSS

Back End: Node.js, Express.js

Database: MySQL, MongoDB, Firebase

Programming Languages: Java, Python

Version Control: Git, GitHub

ACHIEVEMENTS

- Secured a position among the **Top 10 teams** in **HackFusion 2.0**, a national-level hackathon organized by **Google Developers Group (GDG)**.
