Education

MCA	2024 – Present
Sardar Patel Institute of Technology	CGPA: 7.98/10
BSc Physics (Hons)	2021 – 2024
Chandigarh University	CGPA: 7.00/10
Higher Secondary, Science	2019 – 2021
Dempo Higher Secondary School of Science	Marks: 78%
Secondary School, Xth	2018 – 2019
Mount Litera Zee School	Marks: 91%

Technical Skills

Programming: Python, C++, JavaScript
Frameworks: HTML, CSS, ReactJS, NodeJS, ExpressJS
Databases: MongoDB, MySQL
Version Control: Git, GitHub
Tools: Postman, Netlify

Coursework

Operating System
Dat Structures and Algorithms
Object Oriented Programming
Database Management System

Achievements

- AIR 48 MH-CET MCA
- State Level Road Cyclist
- Cleared UPSC CDSE twice

Projects

Sociopedia

- Built using HTML, CSS, MongoDB, Express, Node js, React.
- Focused on user privacy and real-time interaction.

Projectile Motion Simulation — Physics Modeling Tool

- Developed a Python simulation using numerical integration (Euler, Runge–Kutta) to predict projectile trajectories under wind resistance with interactive Matplotlib visualizations.
- Achieved <2% error against analytical models; validated accuracy under varied environmental conditions.
- **Tech Stack:** Python, NumPy, Matplotlib, SciPy

CryptoDash — React + FastAPI Cryptocurrency Dashboard

- Developed a cryptocurrency dashboard integrating React (Ant Design, Tailwind CSS) frontend with a FastAPI backend for real-time market data.
- Implemented Axios-based API calls, caching, and async functions for efficient CoinMarketCap API data retrieval.
- Configured CORS for cross-origin communication and optimized performance through response caching.
- **Tech Stack:** React, FastAPI, Tailwind CSS, Ant Design, Axios, Python
