SUMMARY

Enthusiastic and detail-oriented MCA student with hands-on experience in building web and mobile applications using Java, MERN stack, and Flutter. Proficient in backend development, REST APIs, and database management with MySQL and Firebase. Strong problem-solving skills with a solid grasp of data structures, algorithms, and software development principles.

EDUCATION

MCA – Master of Computer Applications

Bhartiya Vidya Bhavan's Sardar Patel Institute, Mumbai

CGPA: 8.26

Aug 2026

B.Sc. in Computer Applications

Vidya Bharati Mahavidyalaya, Amravati

CGPA: 9.10

Apr 2024

TECHNICAL SKILLS

Languages: Java, C++, JavaScript

Full Stack: MERN (MongoDB, Express.js, React.js, Node.js)

Backend & DB: Java Servlets, JDBC, MySQL, MongoDB

Tools: Git, GitHub, Postman, Flutter

CS Fundamentals: Data Structures & Algorithms, OOP, OS Basics

Others: REST APIs, Payment Gateway Integration, DevOps (Basics)

PROJECTS

Learning Management System - MERN Stack + GPT API

- Created a complete LMS with student/instructor roles, lecture uploads, and progress tracking.
- Integrated GPT-based chatbot for instant course-related query responses.
- Used secure JWT authentication and role-based access control.

Movie Booking System - Flutter, Firebase

- Created a cross-platform mobile app for booking movie tickets with Flutter.
- Implemented user authentication, real-time seat availability, and showtime scheduling.
- Used Firebase Firestore for backend and data sync; clean UI with Flutter widgets.

Makeup E-commerce Website - Java, JSP, Servlets, MySQL

- Developed a full-featured e-commerce platform with product catalog, shopping cart, and checkout.
- Integrated user login/signup, admin panel, and order tracking using Servlets and JDBC.
- Backend in Java + MySQL; frontend built with HTML, CSS, Bootstrap.

Library Management System - HTML, CSS, JavaScript

- Developed a web-based system to add, update, and manage books locally.
- Used LocalStorage to persist data without requiring a backend server.

CERTIFICATIONS

Core Java – MKCL

Completed hands-on training on Java fundamentals, OOP concepts, exception handling, and collections.

C++ – MKCL

Gained practical experience in procedural programming, STL usage, and problem-solving with C++.

Graph Algorithms – AlgoUniversity

Completed an advanced course covering DFS, BFS, Dijkstra, and applications of graph theory in real world problems.

Megahack 5.0 – Hackathon Participant

Collaborated in a 24-hour hackathon to develop an innovative tech solution under time constraints and team pressure.
