Subject: Application for the position of Business Analyst

Dear Sir/Madam,

I am writing to express my keen interest in the Business Analyst position at your esteemed organization. As a second-year MCA student at *Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology*, I have developed a strong foundation in both technical and analytical aspects of software systems. I aspire to build a career that combines data-driven decision-making with business understanding, and I believe this role aligns perfectly with my goals.

I possess a good command over problem-solving, data analysis, and application development, having worked on diverse projects involving Database Management and Web Applications. My ability to understand problems, break them down logically, and present practical solutions has been a consistent strength. I am particularly interested in the way Business Analysts bridge the gap between business needs and technical solutions — a responsibility I am eager to take on.

During my previous internship, I worked on a Customer Relationship Management System, where I developed a dashboard module, migrated data from MySQL to Microsoft SQL, and debugged deployed applications. This experience not only improved my technical skills but also taught me the importance of stakeholder communication, user-focused thinking, and structured documentation — all of which are essential traits for a Business Analyst.

I am confident that my combination of technical proficiency, analytical mindset, and strong communication skills will allow me to quickly contribute to your team. I am highly motivated to learn from real-world challenges and assist in improving business outcomes through insightful analysis and structured planning.

I would welcome the opportunity to discuss how my background and enthusiasm for business analytics can be of value to your organization. Thank you for considering my application.

Sincerely,

Tejas Desai

WORK EXPERIENCE

Technotonic Solutions

Aug 2023 - Feb 2024

Java Full Stack Developer

- Developed and maintained Customer Relationship Management (CRM) systems using **Java**, **Microsoft SQL Server**, **MySQL**, **JavaScript**, and **jQuery**.
- Migrated database components from **MySQL to Microsoft SQL Server**, including **schemas**, **SQL queries**, **stored procedures**, and **triggers**.
- Implemented **CRUD operations** and **visual data representations** for various modules within the CRM system.
- Utilized **Struts Framework** for MVC-based web application development, enhancing code maintainability and scalability.

PROJECTS

BlogSphere - MERN, Python, Docker, Render

Full-Stack Blogging Platform: Built with **Node.js**, **Express**, **MongoDB**, **React.js**, and **Flask (TensorFlow)** for **AI text suggestions**. Supports user posts, likes, comments, follow/save, Cloudinary uploads, secure auth, REST APIs with pagination/search, and Dockerized backend.

Hotel Management System - Jsp, Java, MySQL

Developed using **JSP**, **Java**, **Struts2**, **MySQL**, **Bootstrap**, and **jQuery**. Implemented user roles (Admin, Manager, Receptionist) to manage guests, rooms, and bookings. Automated billing via **MySQL** triggers/procedures; optimized data access with SQL joins and dynamic stored procedures.

Stock Market Prediction Hybrid Model (LSTM - CNN)

Developed a CNN-LSTM model to forecast NIFTY 50 index prices using historical Yahoo Finance data. Applied time-series preprocessing, scaling (MinMaxScaler), and evaluation using RMSE & MAPE. Enabled next-day prediction with real-time data and dynamic visualizations.

Unnati : (Rural Girls Development) - Firebase, Node.js, React.js, Tailwind.

Built during a Google Developer Group Hackathon to uplift rural girls by providing an interactive platform (React, Node.js, Firebase, Tailwind) with features like online lectures, downloadable toolkits, an entrepreneurial marketplace, AI-powered assistance (Gemini API), and regional language support via Google Translate.

EDUCATION

MCA

Sep 2024 - Present

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology(Andheri) - CGPA 8.79/10

BSC.IT

Aug 2020 - June 2023

Thakur College of Science and Commerce(Kandivali) - CGPA 8.15/10

SKILLS

Java, Sql, MERN, JSP, Servlets, SQL, DSA.

POSITION OF RESPONSIBILITY

TPC [Spit 2024 - present]

Senior Under Officer [National Cadet Corps 2020-2023]
