WORKING HISTORY

Vishleshan Software Solution Software Developer (Angular)

Mumbai, IN | Jun 2023 — Jul 2024

- Developed and maintained multiple Angular applications with TypeScript, HTML, CSS, and JavaScript.
- Integrated UI elements such as charts, tables, forms, and other interactive features into the application using Angular Material and the RxJS library.

PROJECTS

Tata Motors Web Application (Admin)

- Built an admin application with interactive charts and comprehensive CRUD operations for customer data.
- Implemented advanced data filtering, sorting, and pagination to enhance the user experience and ensure efficient data management.

Tata Motors - Buy Tata Trucks and Buses Online (Customer Application)

- Developed secure user login with email OTP, password authentication, and authorization.
- Created the "Build Your Own Vehicle" feature by retrieving and updating vehicle specifications through APIs.
- Displayed data dynamically on the frontend using Angular's data binding and state management.

E-Dukaan (Admin)

- Developed Tata Motors' website for spare parts using Angular to provide functionalities like product catalogues, search features, and CRUD operations.

Local Shop-Connector (Personal Project)

- Built a platform to connect all local shops and enable purchases from their online stores.
- Implemented data binding from APIs and created pagination charts with detailed CRUD operations. • Using Angular, Node js and mongo DB.

Walmart Data Analysis using Power BI (Personal Project)

- Conducted monthly sales and performance analysis by creating interactive dashboards using Power BI.
- Designed visuals such as graphs and charts to identify trends, patterns, and insights for improved decision-making.

[POSITION OF RESPONSIBILITY](#)

Technical Organizer - Iskra.Tech (TY BSc.IT):

- **Led the Technical Execution of Iskra.Tech**, organizing and managing the **Tech Quiz and Mini Hackathon**, ensuring smooth event operations, question curation, and participant engagement.
- **Designed and supervised** the technical aspects of the event, including **problem statements, evaluation criteria, and digital tools** to enhance the competitive experience for participants.
