

Riddhi Patil

Phone: 9226864723

Email: riddhipatil1905@gmail.com

Address: Mumbai, Maharashtra

GitHub: github.com/riddhipatil19

Summary

- Aspiring Backend Developer with a foundation in Spring Boot, RESTful APIs, and database design
- Built backend projects using Java and MySQL, with focus on clean, modular code and maintainability
- Experienced with Postman, Swagger, and Git for API testing, documentation, and version control
- Self-driven learner passionate about backend development and exploring modern technologies

Education

Masters in Computer Application (2024-2026), Sardar Patel Institute of Technology

Bachelor of Science in Information Technology, Annasaheb Vartak College, Vasai

HSC (Science), St. Rocks College, Borivali

Projects

Job Listing Platform

github.com/riddhipatil19/job_listing

- Worked in a team to develop a job listing platform; independently built and managed the backend system
- Developed secure REST APIs for job postings, user authentication, and application workflows
- Designed and integrated MySQL database using Aiven for scalable data persistence
- Deployed backend with Docker on Render, and coordinated with frontend deployment on Netlify
- Documented APIs with Swagger and tested endpoints using Postman
- **Tools Used:** Java, Spring Boot, MySQL, REST APIs, Docker, Render, Aiven, Swagger, Postman, Netlify

Runalytics

github.com/riddhipatil19/runn-tracker

- Collaborated in a team to develop a fitness tracking application; independently built the complete backend
- Developed RESTful APIs for tracking distance, time, pace, and storing run data in a MySQL database
- Documented and tested APIs using Swagger and Postman for smooth frontend integration
- Flutter-based mobile frontend built by teammate to log workouts and display analytics
- **Tools Used:** Java, Spring Boot, MySQL, REST APIs, Swagger, Postman

Technical Skills

Programming Languages: Java, Python(basic)

Backend Technologies: RESTful APIs, Spring Boot, Docker

Databases: MySQL

Tools & Platforms: Git, GitHub, Postman, Swagger, IntelliJ IDEA, VS Code

Certifications

Java Programming Masterclass: Java 17, Spring Boot 3, Spring 6, Hibernate – Udemy

Gained hands-on experience building backend systems with Spring Boot, covering Spring Core (IoC), MVC, REST APIs, Data JPA, Security. Also covered basics of Git and DSA.

Certificate ID: [UC-a72e9fd6-6e1e-4793-a4ec-404b61fd8b74](#)

The Complete SQL Bootcamp: Go from Zero to Hero – Udemy (*In Progress*)

Learning SQL with MySQL 8.x through hands-on projects, including writing complex joins, window functions (RANK, LEAD, LAG), and designing real-world schemas. Focused on querying large datasets, analyzing data, and generating reports for business insights.
