SUMMARY

A curious and hardworking individual with a passion for problem-solving and continuous learning. Strong interest in software development and DevOps, with hands-on experience in building projects and exploring new technologies. Known for being detail-oriented, self-motivated, and eager to take on challenges that help improve both skills and outcomes.

EDUCATION

MASTER OF COMPUTER APPLICATION

Bharatiya Vidya Bhavan's Sardar Patel Institute of Technology

CGPA: 8.13

2024 - Present

Bachelor of Science in Computer Science

Nirmala Memorial College of Science and Commerce

CGPA: 8.79

2023 - 2020

PROJECTS

Explainable AI (XAI) Framework for Personal Financial Advisory Services (FinSight AI)

[Github Link](#)

- Developed a personal financial advisory platform using Streamlit (frontend) and PostgreSQL/SupaBase (backend) to deliver transparent, explainable investment recommendations using ML models (Random Forest, XGBoost).
- Collaborated on front-end design using Streamlit and PostgreSQL (via SupaBase), while teammate led ML model training for risk profiling and investment suitability.
- Tech Stack: Python, Streamlit, Scikit-learn, XGBoost, SHAP, LIME, PostgreSQL (SupaBase)

Clinic Management System

[Github Link](#)

- Developed a full-featured clinic management web app using Node.js, Express.js, Prisma ORM, and PostgreSQL.
- Implemented multiple scheduling and optimization algorithms: Priority-based, Shortest Job First, Round Robin, and Job Sequencing with Deadlines.
- Secured platform with session-based authentication, role-based access control, and admin privilege checks.
- Tech Stack: Node.js, Express.js, Prisma, PostgreSQL, EJS, HTML/CSS

Weather App

[Github Link](#)

- Built a responsive weather web application that fetches real-time data from public APIs using JavaScript, displaying dynamic UI elements..
- Deployed a full CI/CD pipeline using Jenkins and Docker to automate the build and deployment lifecycle.
- Tech Stack: HTML,CSS,JavaScript, Jenkins, Docker

SKILLS

Programming Languages: Java, Python

Web Technology : HTML, CSS , JavaScript, TailWindCSS, ReactJs, NodeJs, Express Js

Database : MySQL, SupaBase(PostgressSQL), FireBase , SQLite

Tools : Git , Docker, Jenkins, Automation Anywhere, Kubernetes,Selenium

CERTIFICATE

AWS Cloud Quest: Cloud Practitioner - Amazon Web Services : [Certificate Link](#)
