PROJECTS

IEEE-VSIT Website

Developed a dynamic website for the IEEE-VSIT student branch. Used to display current events and view previous events. Register for ongoing events. Display the committee members and professors associated with IEEE.

Technology Used:

HTML, CSS3, JavaScript, PHP, MySQL

CollabTex: Collaborative LaTeX Editor

Built a full-stack collaborative LaTeX editor with real-time CRDT-based syncing, live preview, cloud storage via OAuth 2.0, and CI/CD pipelines.

Technology Used:

React.js, Spring Boot, WebSockets, OAuth 2.0

ROLES OF RESPONSIBILITY

Student Council, VSIT, Mumbai, India

October 2020 – March 2021

Graphics Team member

- Collaborated with event heads to design digital assets, certificates, and branding materials for college festivals.
- Improved visual communication for event promotions.

IEEE-VSIT, Mumbai, India

February 2021 - February 2022

Technical Head

- Coordinated between speakers, design, and operations team to ensure smooth event execution (~100+ students reached).
- Owned the end-to-end communication flow (pre-event forms, reminders, and post-event certificates).
- Practiced stakeholder management by collecting feedback and iterating event processes.
