Professional Summary

A technically strong and solution-focused individual with a solid grasp of programming, data structures, and algorithms. Comfortable working with both scripting and object-oriented languages to build scalable, real-time applications. Skilled at analyzing problems, crafting efficient solutions, and explaining technical concepts in a clear, impactful way.

Projects

MERN Stack Food Delivery System

Developed a full-stack food delivery platform using the MERN stack, featuring user authentication, dynamic menus, cart management, and order tracking. Ensured seamless frontend-backend integration and responsive UI for smooth user experience.

Travel Website using React

Built an interactive travel website using React, showcasing destinations with dynamic routing, search filters, and responsive design. Focused on user-friendly navigation and visually appealing layouts.

Nyaya Vaadh

Currently developing an AI-powered legal assistant using FastAPI, React, and MySQL to provide instant legal guidance in criminal law. Integrating natural language processing for understanding user queries and generating legal drafts.

Education

Master of Computer Applications (MCA)

Bhartiya Vidya Bhavan Sardar Patel College, Andheri West

Expected Jun 2026

Bachelor of Computer Science (BSC-CS)

D.G.Ruparel College of Arts, Commerce and Science, Matunga West

Jun 2024

Technical Skills

- **Programming Languages:** Java, C++
- **Core Skills:** Data Structures and Algorithms, System Design Fundamentals, API Integration
- **Development Tools:** Git, GitHub, VS Code, Firebase, Database, IntelliJ
- **Frameworks / Platforms:** React, Flutter
- **Professional Skills:** Problem-Solving, Analytical Thinking, Communication, Team Collaboration

Hobbies & Interest

- **UI/UX Design Experiments** – Enjoy designing intuitive and engaging user experiences for personal
- **Playing Badminton** – Enhances teamwork, strategic thinking, and physical agility
- **Practicing Kathak** – Develops creativity, discipline, and deep cultural understanding

Accomplishments

- Collaborated with the core team to plan and execute DotTech event, a college-level technical event; took initiative in managing schedules, coordinating technical resources, and ensuring smooth event delivery.
- Served as a Committee Member for the college Cultural Program, contributing to event planning, coordination, and successful execution of large-scale student activities.
