Education

Master of Computer Applications (MCA)

2024 – Present

Sardar Patel Institute of Technology (S.P.I.T)

- CGPA - 8.65

BSc Computer Science

Aug 2021 – May 2024

Govt. Holkar Science College , Indore

- CGPA: 7.3

Higher Secondary Certificate (HSc) – Class 12

2021

Jawahar Navodaya Vidyalaya, Dhar (M.P)

- Percentage: 92%

Secondary School Certificate (SSC) – Class 10

2019

Jawahar Navodaya Vidyalaya, Dhar (M.P)

- Percentage: 89.2%

Technologies

Languages: C++, Java , JavaScript, SQL, HTML, CSS

Technologies: React, Express.js, Node.js, Tailwind, Bootstrap, Spring Boot, AWS

Databases: MySQL , MongoDB

Tools: GitHub, VS code, Postman

Projects

StudyNotion (Ed-tech)

[Source Code](#) 

Technologies: React, Node.js, Express.js, Razorpay, MongoDB, Cloudinary

- Students can buy courses, add to cart, rate, and pay via UPI or credit card using **Razorpay API**.
- Student can **watch online video lectures** and can track their progress.
- Instructors can add, delete, and update courses and set the price.
- Built a **dashboard** for instructors to track enrolled students and course revenue (pie charts).
- Email verification by sending an **OTP** using **Nodemailer**.

Monthly Challenges

[Source Code](#) 

Technologies: React, Bootstrap, Node.js, Spring boot, AWS S3 Bucket, AWS RDS, EC2

- Created a dynamic web app offering monthly challenges to boost user engagement and skill development.
- Developed a responsive front-end with **React**, delivering an intuitive UI for smooth interaction.
- Designed and developed the backend using **Spring Boot MVC**.
- Used **AWS S3** for secure storage and retrieval of challenge assets, ensuring high availability and durability.
- Integrated **AWS RDS** for reliable database management, enabling efficient data storage.

AI Email Writer Assistant

[Source Code](#) 

Technologies: React, Chrome Extension, Spring Boot, Gemini API

- Developed AI-based email reply assistant using Google's Gemini API with support for multiple tones.
- Built a Chrome Extension integrated with Gmail for one-click smart replies.
- Created a responsive React web app as a standalone interface for reply generation.
- Designed Spring Boot REST API backend with secure Gemini API integration and CORS handling.
- Ensured secure API key management and clean modular architecture for scalability.
