SKILLS

- **Programming Languages** : Python | C++ | SQL |
- **Programming Frameworks** : Scikit | TensorFlow | PyTorch | Pandas | NumPy | Matplotlib |
- **Technologies** : Machine Learning | GenAI | Azure AI | AWS | Tableau | MongoDB | MySQL | Git |

EDUCATION

Master in Computer Application	<u>Sardar Patel Institute of Technology</u>	<i>Mumbai</i>	2024 - Present
• Performance - 8.4 CGPA			
Bachelor of Information Technology	<u>St. Xavier's College</u>	<i>Mumbai</i>	2021 - 2024
• Performance - 8.68 CGPA			
HSC - Computer Science	<u>Ratnam College</u>	<i>Mumbai</i>	2021
• Performance - 91.83%			

PROJECTS

Yoga Pose Recommender System

- Engineered recommendation system using Python to help users choose personalized poses from **141-pose dataset**
- Achieved **97.3% F1-score**, **96.8% NDCG** ranking accuracy, and safety evaluation across 16 focus areas
- Built Streamlit web application with real-time visualization for yoga practice guidance

Deep Fake Detective - Deepfake Face Detection System

- Developed EfficientNet-B3 neural network achieving **96.5% test accuracy** for real-time deepfake face detection using PyTorch and computer vision
- Implemented **Grad-CAM explainable AI** visualization with multi-layer analysis across 3 network depths for interpretable facial image classification

KuKi AI - AI Powered Content Creation Tool

- Engineered content generation system using Groq API and natural language processing to create contextually relevant posts based on topics, languages, and length parameters
- Implemented **MongoDB database** integration for efficient storage and retrieval of previously generated posts, enabling users to view past posts

CERTIFICATIONS

- **Unsupervised Learning, Recommenders, Reinforcement Learning** : Offered by DeepLearning.AI and Stanford University **Sep. 2024**
- **Advanced Learning Algorithms** : Offered by DeepLearning.AI and Stanford University **Jun. 2024**
- **AWS Cloud Technical Essentials** : Offered by Amazon Web Services **Apr. 2024**
- **Supervised Machine Learning: Regression and Classification** : Offered by DeepLearning.AI and Stanford University **Feb. 2024**
- **Microsoft Azure AI Fundamentals** : Offered by Microsoft **Sep. 2023**

POSITION OF RESPONSIBILITY

Subhead, Creatives	<u>Techstatic 2024</u>	Nov. 2023 - Jan. 2024
Crafted a 3D logo for the fest, spearheaded impactful social media campaigns, engineered a custom arcade machine prop, and led a high-performing team of 6 with precision.		
Volunteer, Creatives (Web Design team)	<u>Malhar 2023</u>	May 2023 - Aug. 2023
Designed sleek web pages and iconic graphics for the Malhar 2023 app and website, enhancing user engagement and brand identity.		

OTHERS

- Ranked #1 in [ML Spark](#) Kaggle Competition with an F1 score of 0.66 **Mar. 2025 - Apr. 2025**
- AI Tools workshop conducted by IT Dept, St. Xavier's college **Sep. 2023**

HOBBIES & INTERESTS

- Sketching
- Reading books
