Databases: MySQL, PostgreSQL, MongoDB

CMS & Platforms: Shopify, WordPress, Git, GitHub, XAMPP

Other: API integration, Cloud Computing basics, Linux

Experience

Software Developer | Ikshvaku Solutions

2022 – 2024

- Specialized in Shopify and WordPress development for e-commerce and service-based businesses.
- Built and customized themes, plugins, and integrations to meet client needs.
- Occasionally worked on custom applications using React, Express.js, FastAPI, and PHP.
- Collaborated with clients to improve site performance, SEO, and user engagement.

Projects

NyaayVaad – AI Legal Assistant

Built an AI-powered platform where ordinary people can discuss their legal issues with a virtual lawyer. The system asks contextual questions based on the incident, records the conversation, and automatically drafts a structured legal document for the user.

Just Fine Love – Jewelry Store (Shopify)

Designed and customized a full-featured Shopify jewelry store with integrated product catalog, cart, and secure checkout.

Travel to Revel – Travel Blog/Portal (WordPress)

Created and maintained a WordPress-based travel website with custom themes, SEO optimization, and content management features.

Education

Master of Computer Applications (MCA) – S.P.I.T. College (Ongoing)

Bachelor of Commerce (B.Com) – St. Gonsalo Garcia College, Vasai

HSC (57%) & SSC (64%) – New English School

Achievements

- Delivered multiple Shopify and WordPress projects to clients with positive feedback.
- Won recognition for Restaurant Management System during MCA coursework.
- Consistently managed freelance projects alongside academics.

Interests

Boxing | Swimming | Gym | Exploring AI Applications
