Carrier Objective

Aspiring Software Developer with skills in Java 8, SQL, and web technologies; 2× Hackathon winner experienced in building applications. Combines development expertise with analytical thinking from roles in Product Analytics and Financial Markets.

Education

Course	Institute	Score	Year
MCA	Sardar Patel Institute of Technology, Mumbai	8.3 CGPA	Expected Jun-2026
BCA	YCMOU (SCI, Pune)	8.6 CGPA	Aug-2023
HSC	CBSE (K.V College of Military Engineering, Pune)	84.89 %	Jun-2020

Relevant Academic Courses

- Object Oriented Programming
- Database Management Systems
- Advance Java
- Operating System
- Java Collection Framework
- Java 8 Features
- Agile Project Management with Scrum
- SQL
- Python for Data Professionals

Projects

SPITian's Bay - Innvothion Finale Project | Core Java, JDBC, MySQL Github

- Platform for new college joiners to find PGs with estimated to save **53+ Lakhs** Brokerage of **450+** OMS Students.
- Utilized Java **OOP** concepts, **Polymorphism** for **reusability** of code and **Encapsulation** for **modularity**.
- To enhance PG search feature, Engineered **Unique** PG Search and Filtering Algorithm using user-defined weights.
- Built a dynamic blog with hashtag-based search, using **HashSet** for fast, duplicate-free filtering and instant retrieval.

Net Banking System - Advance Java University Coursework | JSP, Servlet, JDBC, MySQL Github

- Built banking system using **Servlet API** for request handling, form processing, and business logic.
- Used **HttpSession** for state tracking to **manage user sessions** and reliably maintain session-specific data.
- Used **RDBMS** to store critical banking data, using schema for efficient queries and **ACID compliance**.

CRM Analytics - DBMS BootCamp Project | MySQL, NLTK's VADAR, Python Github

- Implemented SQL joins to merge multi-table datasets and applied Python NLTK's VADER for **sentiment scoring**.
- Performed **data profiling** and handling missing values, detecting duplicates, and verifying **data integrity**.
- Used **Window functions** and **Normalized data** to clean, validate, and transform review data for accuracy.

Internships and Work Experiences

Nayan Pokharkar and Associates Pune, Maharashtra, India *Product Analyst Intern – Full Time Jun 2023 – Mar 2024*

- Conducted primary and secondary market research, analyzing data from **19,000+ traders** to identify **35% inactive users** and reactivate **20%**, generating **32.8L+** in brokerage revenue; collaborated between stakeholders and development team to translate requirements and prioritize features based on customer insights.

CRM Administrator - L2 – Full Time Jan 2021 – May 2023

- Managed support tickets on **Zerodha CRM** for leads, demat accounts, and IPO issues, collaborating with cross-functional teams to improve ticket flow and resolution processes; achieved **90%+ QA scores** and consistently ranked in **top 3/900+** brokering partners.

Technical and Soft Skills

Languages and Tools: Java 8, SQL, Python

Libraries and Frameworks: JSP, Servlet, JDBC, Springboot Basics, HTML, Tailwind CSS

Core CS Fundamentals : Object Oriented Programming, Database Management System, Operating System, SDLC.

Soft Skills: Presentation Skills, Adaptability ,Team Collaboration, Analytical Thinking, Effective Communication

Achievements

Winner SPIT MCA Hackathon 2025 - Collaborated in a group project to build a full-stack web application.

Winner SPIT Codex Hacakathon - Contributed to make Group Chat Application, earned **Coder of the Month**.

Achieved **99.19** percentile in **MAH MCA CET 2024**, ranking in the **top 1%** of candidates across Maharashtra.

Led a team **Reached National Level** at **Science Congress** for Sustainable Development Project at **IIT Bombay**.

Position of Responsibility

Training and Placement Coordinator, S.P.I.T, Mumbai: Core Team Member of MCA Placement Committee.

S.P.I.T. Alumni Relations Cell : Contributed in creation and validation of institute's **Alumni Database**.
