EDUCATION

Bhartiya Vidya Bhavan's Sardar Patel Institute of Technology

Master of Computer Applications; CGPA: 8.91/10

Mumbai, India

Sep 2024 – May 2026

M.L. Dahanukar College of Commerce

Bachelor of Science in Information Technology; Grade A

Mumbai, India

Aug 2021 – May 2024

EXPERIENCE

Java Development Intern

Codveda Technologies

Remote

Aug 2025 – Oct 2025

- Engineered data-driven backend modules for logistics automation, optimizing **data ingestion and transformation workflows** to reduce latency by **15%**.
- Developed and deployed **RESTful APIs** to facilitate secure data exchange across services, enhancing system scalability and API response time by **25%**.
- Designed and optimized **relational data models** and SQL queries in MySQL, improving data retrieval efficiency by **20%**.
- Implemented **database indexing and normalization strategies**, boosting transactional throughput and reliability.

PROJECTS

Rentiful – Full-Stack Rental Platform | [GitHub](#) | *Next.js, AWS, PostgreSQL*

Ongoing

- Developed secure role-based authentication using **AWS Cognito**, enabling multi-user access control and reducing unauthorized requests by **40%**.
- Designed and optimized **PostgreSQL schemas** for large-scale property data and geolocation mapping across 20+ cities.
- Implemented data caching and image optimization via **ImageKit**, reducing load times by **50%** for 500+ listings.
- Built an **ML-based recommendation system** for personalized property suggestions, achieving **85% prediction accuracy**.

AI ChatBot – Conversational Platform | *Spring Boot, JavaScript, WebSockets, REST API*

Sep 2025

- Built real-time data pipelines for chat message storage and analytics using **Spring Boot** and **WebSockets**, maintaining **95% uptime**.
- Developed APIs for user authentication, session tracking, and chat history retrieval with token-based security.
- Implemented asynchronous message handling for concurrent data streams, reducing API latency by **30%**.

TECHNICAL SKILLS

Programming Languages: Java, Python (Basic), JavaScript (ES6+), SQL

Data & Databases: PostgreSQL, MySQL, AWS S3, ETL Concepts (Basic)

Frameworks & Libraries: Spring Boot, React.js, Node.js, Tailwind CSS

Cloud & DevOps: AWS (Cognito, S3, EC2), Microsoft Azure, Docker (Basic)

Developer Tools: IntelliJ IDEA, VS Code, Postman, Git, Maven

CERTIFICATIONS

Microsoft Azure Fundamentals (AZ-900)

Jul 2023

Java Full Stack Development – CodeForSuccess

May 2025

SOCIAL ENGAGEMENTS

Member, ACSES Subcommittee, S.P.I.T.

Sep 2024 – Present

- Organized the flagship *"Code-It-Out"* coding competition with 100+ participants, managing event logistics, registration, and technical setups.

Volunteer, Esports Tournament, M.L.D.C.

2023

- Coordinated tournament logistics and participant management for 100+ attendees, overseeing technical operations to ensure uninterrupted gameplay and event flow.
