Education

Sardar Patel Institute of Technology, Andheri

Nov 2024 - 2026

Master of Computer Application (CGPA - 9.21 (current))

Shri Shivaji College of Science, Amravati

Sept 2020 - August 2023

Bachelor of Computer Application (CGPA - 9.2)

Projects

Mall Munch: A remote food cart ordering webapp

[Click Here](#) 

- streamlined food ordering in mall food carts by making a web app
- Implemented smooth , responsive and easy to understand user interface
- Implementing on a commercial level would do ineffable wonders to crowd management on weekends
- Designed Backend APIs in Node js and Implemented Redis for caching
- Used Cloudinary for Image storage
- Handled version control with Git
- Deployed on render using Git repository for continuous integration and deployment
- Tech stack : Node js , Express , Cloudinary , React js , MongoDB , Git , Render.com

BlankOut: An Answer sheet optimizing machine learning Algorihtm

- Trained a model using Blank and filled answer sheet images on the base library of MobileNetV2
- Collaborated with the exam department for data collection
- Gained 98 percentage accuracy with minimal data of 400 answer sheets
- Cut down Answer sheet checking time by automating blank page removal which reduced manual work done by teachers
- The pages are not completely blank they have lines for writing purpose and logos , used MobileNetV2 to establish a base image by training
- Tech stack : Python , Numpy , Pandas , TensorFlow , Keras , MobileNetV2 , Tkinter

Achievements

Ranked 1st in College : Ranked 1st in College out of a batch of 120 students, Ranked 3rd in University among total students in the department.

Certification of Participation: Participated in CODORITHM coding competition held in Sipna College of Engineering, Amravati

Certifications in Languages: Certified in Java (Core and Advanced)

Technical Skills

Languages: C++, C, Java , JavaScript, Python

Developer Tools: VScode, Android Studio, Vim, Ubuntu CLI

Front end Technologies: React.js , HTML , CSS , Tailwind CSS , Chakra UI , Shad CN

Back end Technologies: Spring Boot , Node.js , Django Rest Framework(DRF) , Fast API

Database: MySQL, MongoDB, Firebase, Oracle, Redis

Deployment Version Control: Linux, Git
